PRELIMINARY PROSPECTUS, SUBJECT TO COMPLETION, DATED OCTOBER 24, 2018

**XSPORT GLOBAL, INC.
5,400,000 Shares of Common Stock**

This prospectus relates to the offer and sale of up to 5,400,000 shares of common stock, par value \$0.001, of XSport Global, Inc., a Wyoming corporation (the “Company” or the “Registrant”), by Triton Funds LP (“Triton” or (the “Selling Stockholder”).

The shares of common stock being offered by the selling stockholder have been or may be issued pursuant to the purchase agreement dated August 29, 2018 that we entered into with Triton. See “The Triton Transaction” in “Selling Stockholder” for a description of that agreement and “Selling Stockholder” for additional information regarding Triton. The prices at which Triton may sell the shares will be determined by the prevailing market price for the shares or in negotiated transactions.

The total amount of shares of Common Stock which may be sold pursuant to this Registration Statement would constitute 5,400,000 shares of the Company’s Common Stock, assuming that the Selling Stockholder will sell all the shares offered for sale.

The selling stockholder may sell the shares of common stock described in this prospectus in a number of different ways and at varying prices. See “Plan of Distribution” for more information about how the selling stockholder may sell the shares of common stock being registered pursuant to this prospectus. The selling stockholder is an “underwriter” within the meaning of Section 2(a)(11) of the Securities Act of 1933, as amended.

We will pay the expenses incurred in registering the shares, including legal and accounting fees. See “Plan of Distribution”.

Our common stock is currently quoted on the OTC Marketplace, Pink Tier, under the symbol “XSPT”. On October 23, 2018, the last reported sale price of our common stock on the OTC Marketplace was \$0.17.

Investment in the Common Stock involves a high degree of risk. You should consider carefully the risk factors beginning on page 5 of this prospectus before purchasing any of the shares offered by this prospectus.

We may amend or supplement this prospectus from time to time by filing amendments or supplements as required. You should read the entire prospectus and any amendments or supplements carefully before you make your investment decision.

Neither the Securities and Exchange Commission nor any state securities commission has approved or disapproved of these securities or determined if this prospectus is truthful or complete. Any representation to the contrary is a criminal offense.

The date of this prospectus is October 24, 2018.

About Us

XSport Global, Inc. (the “Company”, “XSport Global”, “we”, “us” or “our”), formerly known as HeadTrainer, Inc. (“HeadTrainer”), was incorporated on December 10, 2012, under the laws of the State of Wyoming. XSport Global is a leading youth and collegiate sports technology and media holding company focused on developing disruptive sports-centric technologies and related media projects around the world, where sports industries and players are highly regarded. Backed by a roster of professional athletes and brand ambassadors, we seek to help athletes achieve their full potential through cognitive training, careers, genetics, recruiting and more. Our flagship company, HeadTrainer, was established to create, develop, promote, market, produce, and distribute online/mobile application cognitive training tools initially intended for the youth, millennial, and adult sports markets. The mobile platform was designed and developed in careful coordination with a team of professionals from the fields of science and medicine, and world-class athletes from a variety of sports.

On September 11, 2017, TeleHealthCare executed an Agreement and Plan of Merger (the “Merger Agreement”) with HeadTrainer, Inc., a North Carolina corporation, and HT Acquisition Corp., a Wyoming corporation and wholly-owned subsidiary of HeadTrainer, Inc. (the “Acquisition”) whereby the Acquisition was merged with and into the Company (the “Merger”) in consideration for 17,325,000 post-split newly-issued shares of Common Stock of the Company (the “Merger Shares”). As a result of the Merger, HeadTrainer became a wholly-owned subsidiary of TeleHealthCare, and following the consummation of the Merger and giving effect to the retirement of approximately 15,666,666 post-split shares (leaving approximately 7,957,666 post-split shares remaining prior to the Merger), and the sale of approximately 3,451,322 post-split shares at the Merger to accredited investors, the stockholders of HeadTrainer, Inc. became beneficial owners of approximately 61% of our issued and outstanding common stock.

As a result of the Merger, the 17,325,000 post-split newly-issued shares were issued to the pre-existing HeadTrainer shareholders for all the outstanding shares of HeadTrainer common stock. HeadTrainer assumed net liabilities totaling \$194,632, with the remaining assets and liabilities assumed by MD Capital Advisors, Inc., a Company owned by TeleHealthCare’s former CEO, in a Split-Off Agreement.

At the effective time of the Merger, our Board of Directors and officers were reconstituted by the resignation of Derek Cahill and the appointment of Bob Finigan, Maurice Durschlag and Jay Bilas. Subsequently, on October 16, 2017, Mr. Jay Bilas resigned from our Board of Directors.

At the Merger, our Board of Directors approved an amendment to our Articles of Incorporation (the “Amendment”) to (i) change our name to HeadTrainer, Inc.; (ii) to increase the number of our authorized shares of capital stock to 510,000,000 shares, of which 500,000,000 shares shall be common stock and 10,000,000 shares shall be blank check preferred stock; and (iii) to provide that the Company may take action without a meeting on the written consent of the holders of a majority of the shares entitled to vote at such meeting.

On March 22, 2018, the Board of Directors and Majority Shareholders approved an amendment to our Articles of Incorporation to change our name to XSport Global, Inc. Our business plan has shifted to mobile applications for athletes of all ages and all skill levels, designed to engage and improve cognitive abilities. We are focused on developing a unique, industry-leading iOS and Android cognitive training mobile device application platform called HeadTrainer that we believe is differentiated from other players in the cognitive training space with a primary focus on the youth sports markets.

On August 28, 2018, the Company acquired all of the outstanding capital stock (the “Shares”) of Shift Now, Inc., a North Carolina corporation (“Shift Now”). The purchase price for the Shares was 700,000 shares of our Common Stock and \$30,000 consisting of two promissory notes for \$15,000 each (the “Notes”). The first promissory note for \$15,000 is to be delivered at closing and due within 12 months of the closing. The second promissory note for \$15,000 is to be delivered to the Seller no later than the 12 month anniversary of the closing and due within 12 months after issuance. Additionally, the Company assumed the Shift Now’s existing line of credit made in favor of American National Bank in the current amount of \$100,000. Also on August 28, 2018, the Company entered into an employment agreement (the “Employment Agreement”) with Kristi Griggs, the former principal shareholder of Shift Now (the “Employee”) to serve as Executive Vice President of the Company’s Shift Now Division. The Employment Agreement provides that upon consummation of the Merger, Employee shall be entitled to receive a salary of \$100,000 per year plus a bonus of 5% of net revenue of clients managed by Employee or 1.5% of total gross revenues of Shift Now to be paid on the last pay period of the month for the prior month’s activity. Additionally, the Company shall issue the Employee 150,000 shares of Common Stock at the 12-month anniversary of execution of the Employment Agreement. Employee shall receive an additional 150,000 shares of Common Stock upon the 24-month anniversary of the Employment Agreement. The Employee may receive severance of the greater of six months’ salary or \$50,000 upon termination of the Employment Agreement and shall be entitled to retain all equity ownership earned as of the date of termination.

About This Offering

On August 29, 2018, we entered into a purchase agreement with Triton, which we refer to in this prospectus as the Purchase Agreement, pursuant to which Triton has agreed to purchase from us up to \$1,000,000 of our common stock (subject to certain limitations). Also on August 29, 2018, we entered into a Registration Rights Agreement, or the Registration Rights Agreement, with Triton, pursuant to which we have filed with the SEC the registration statement that includes this prospectus to register for resale under the Securities Act of 1933, as amended, or the Securities Act, the shares that have been or may be issued to Triton under the Purchase Agreement.

Other than 400,000 shares of our common stock that we have already issued to Triton pursuant to the terms of the donation which was approved by the Company, we do not have the right to commence any further sales to Triton under the Purchase Agreement until the SEC has declared effective the registration statement of which this prospectus forms a part. Except as described in this prospectus, there are no trading volume requirements or restrictions under the Purchase Agreement, and we will control the timing and amount of any sales of our common stock to Triton. The purchase price of the shares that may be sold to Triton under the Purchase Agreement will be based on 70% of the volume-weighted average price of our common stock during the 5 trading days prior to a closing date. The purchase price per share will be equitably adjusted for any reorganization, recapitalization, non-cash dividend, stock split, or other similar transaction occurring during the business days used to compute such price. Triton may not assign or transfer its rights and obligations under the Purchase Agreement.

As of October 15, 2018, there were 36,740,140 shares of our common stock outstanding, of which approximately 25,525,319 shares were held by non-affiliates, including the 400,000 shares that we have already issued to Triton under the Purchase Agreement. Triton may not assign or transfer its rights and obligations under the Purchase Agreement. If all of the 5,400,000 shares offered by Triton under this prospectus were issued and outstanding as of the date hereof, such shares would represent approximately 13% of the total number of shares of our common stock outstanding and 18% of the total number of outstanding shares held by non-affiliates, in each case as of the date hereof. If we elect to issue and sell more than the 5,400,000 shares offered under this prospectus to Triton, which we have the right, but not the obligation, to do, we must first register for resale under the Securities Act any such additional shares, which could cause additional substantial dilution to our stockholders. The number of shares ultimately offered for resale by Triton is dependent upon the number of shares we sell to Triton under the Purchase Agreement.

Issuances of our common stock in this offering will not affect the rights or privileges of our existing stockholders, except that the economic and voting interests of each of our existing stockholders will be diluted as a result of any such issuance. Although the number of shares of common stock that our existing stockholders own will not decrease, the shares owned by our existing stockholders will represent a smaller percentage of our total outstanding shares after any such issuance to Triton.

For more detailed information on the transaction with Triton, please see “The Triton Transaction” in “Selling Stockholder” below.

RISK FACTORS

An investment in the Company's Common Stock involves a high degree of risk. You should carefully consider the risks described below as well as other information provided to you in this prospectus, including information in the section of this document entitled "Forward Looking Statements." The risks and uncertainties described below are not the only ones facing us. Additional risks and uncertainties not presently known to us or that we currently believe are immaterial may also impair our business operations. If any of the following risks actually occur, our business, financial condition or results of operations could be materially adversely affected, the value of our Common Stock could decline, and you may lose all or part of your investment.

In addition to the other information contained in this prospectus, the following risk factors should be considered carefully in evaluating an investment in us and in analyzing our forward-looking statements.

RISKS RELATED TO OUR BUSINESS

There is substantial doubt about our ability to continue as a going concern.

We have not generated any profit from operations since our inception. We expect that our operating expenses will increase over the next twelve months to continue our development activities. Based on our average monthly expenses and current burn rate ranging from \$10,000-\$40,000 per month, we estimate that our cash on hand as of October 24, 2018 will not be able to support our operations through the next twelve months from the issuance of this registration statement. This amount could increase if we encounter difficulties that we cannot anticipate at this time or if we acquire other businesses. We do not expect to raise capital through debt financing from traditional lending sources since we are not currently generating a profit from operations. Therefore, we only expect to raise money through equity financing via the sale of our common stock or equity-linked securities such as convertible debt. If we cannot raise the money that we need in order to continue to operate our business beyond the period indicated above, we will be forced to delay, scale back or eliminate some or all of our proposed operations. If any of these were to occur, there is a substantial risk that our business would fail. If we are unsuccessful in raising additional financing, we may need to curtail, discontinue or cease operations.

We are a start-up and have limited history with our operating subsidiary, and as a result, we may experience losses and cannot assure you that we will be profitable.

We are a start-up and have a limited operating history to evaluate our business. Our operations are subject to all of the risks inherent in the establishment and expansion of a business enterprise. Start-up enterprises are speculative investments and profits therefore hinge upon public acceptance of the businesses, which may or may not occur. Accordingly, the likelihood of our success must be considered in the light of the problems, expenses, difficulties, complications, and delays frequently encountered in connection with the starting and expansion of a business and the relatively competitive environment in which we operate. Unanticipated delays, expenses and other problems such as setbacks in product development, product manufacturing, and market acceptance are frequently encountered in establishing a business such as ours. There can be no assurance that the Company will be successful in addressing such risks, and any failure to do so could have a material adverse effect on the Company's business, results of operations and financial condition.

Because of our limited operating history, we have limited historical financial data on which to base planned operating expenses. Accordingly, our expense levels, which are, to a large extent, variable, will be based in part on our expectations of future revenues. As a result of the variable nature of many of our expenses, we may be unable to adjust spending in a timely manner to compensate for any unexpected delays in the development and marketing of our products or any subsequent revenue shortfall. Any such delays or shortfalls will have an immediate adverse impact on our business, operating results and financial condition.

We have not achieved profitability on a quarterly or annual basis to date. To the extent that net revenue does not grow at anticipated rates or that increases in our operating expenses precede or are not subsequently followed by commensurate increases in net revenue, or that we are unable to adjust operating expense levels accordingly, our business, results of operations and financial condition will be materially and adversely affected. There can be no assurance that our operating losses will not increase in the future or that we will ever achieve or sustain profitability.

No Assurance of Sustainable Revenues.

There can be no assurance that our business will generate sufficient and sustainable revenues to enable us to operate at profitable levels or to generate positive cash flow. As a result of our limited operating history and the nature of the markets in which we compete, we may not be able to accurately predict our revenues. Any failure by us to accurately make such predictions could have a material adverse effect on our business, results of operations and financial condition. Further, our current and future expense levels are based largely on our investment plans and estimates of future revenues. We expect operating results to fluctuate significantly in the future as a result of a variety of factors, many of which are outside of our control. Factors that may adversely affect our operating results include, among others, demand for our products and services, costs related to the continued improvement of our products and services, expenditures and other costs relating to the expansion of our operations, the introduction of new or enhanced products and services by us or our competitors, the timing and number of new hires, changes in our pricing policy or those of our competitors, the mix of products, increases in the cost development of our products, technical difficulties with the products, incurrence of costs relating to future acquisitions, general economic conditions, and market acceptance of our products. As a strategic response to changes in the competitive environment, we may, from time to time, make certain pricing, service or marketing decisions or business combinations that could have a material adverse effect on our business, results of operations and financial condition. Any seasonality is likely to cause quarterly fluctuations in our operating results, and there can be no assurance that such patterns will not have a material adverse effect on our business, results of operations and financial condition. We may be unable to adjust spending in a timely manner to compensate for any unexpected revenue shortfall.

We will need to raise additional funds in the future that may not be available on acceptable terms or at all.

We may consider issuing additional debt or equity securities in the future to fund our business plan, for potential acquisitions or investments, or for general corporate purposes. If we issue equity or convertible debt securities to raise additional funds, our existing stockholders may experience dilution, and the new equity or debt securities may have rights, preferences and privileges senior to those of our existing stockholders. If we incur additional debt, it may increase our leverage relative to our earnings or to our equity capitalization, requiring us to pay additional interest expenses. We may not be able to obtain financing on favorable terms, or at all, in which case, we may not be able to develop or enhance our products, execute our business plan, take advantage of future opportunities or respond to competitive pressures.

Our current management has wide latitude in decision making which may limit any outside influence on the Company

The Company's governing documents provide management with wide latitude as to the type of businesses the Company will pursue and the method, duration, and location of such pursuit. Management is not required to obtain the approval of shareholders to pursue any particular business initiative. As such, management's decisions could affect the value of the Common Stock. In addition, management will be obligated to manage the assets of the Company in the best interests of the Company. However, individual members of management may engage in other related but non-competitive business activities.

The Company's business plan places a significant reliance on third-party providers.

The Company's business plan is dependent on it being able to develop, market and distribute all or certain portions of its products, which are currently being developed, produced, marketed and distributed primarily by third party providers. If any such provider fails in any way, the Company's ability to deliver the products may be negatively impacted which could result in a material adverse effect on the our business. Furthermore, in the event that a provider raises the cost of its service to us, such cost increase could cause the cost of our products to be excessive for the market. If we are not in a position to have the products developed, produced, marketed or distributed by another provider or if the transition to another provider is excessively expensive, the cost to or delay associated with the transition could resulting in a material adverse effect on our business.

Our success will depend to a large extent on broad market acceptance of our products.

There can be no assurance that we will reach our target market or that anyone will purchase our products. In the event that customers initially purchase our products, there can be no assurance that enough customers will purchase our products or that they will continue to purchase our products in enough volume to produce the cash flow needed to sustain our operations.

Our business is at risk if we lose key personnel or we are unable to attract and integrate additional skills personnel.

The success of our business depends, in large part, on the skill of our personnel. Accordingly, it is critical that we maintain, and continue to build, a highly-experienced management team and specialized workforce, including project management and business development, and sales professionals. Competition for personnel, particularly those with expertise in the mobile application space, is high, and identifying candidates with the appropriate qualifications can be difficult. We may not be able to hire the necessary personnel to implement our business strategy given our anticipated hiring needs, or we may need to provide higher compensation or more training to our personnel than we currently anticipate. In the event, we are unable to attract, hire and retain the requisite personnel and third party providers, we may experience delays in furthering our business objectives, which may have an adverse effect on our financial results, harm our reputation and cause us to curtail our pursuit of new projects. Further, any increase in demand for personnel and specialty providers may result in higher costs, causing us to exceed our budgets, which in turn may have an adverse effect on our business, financial condition and operating results and harm our relationships with our customers.

Our future success is particularly dependent on the vision, skills, experience and effort of our senior management team, including our president and chief executive officer. If we were to lose the services of our president and chief executive officer or any of our key employees, our ability to effectively manage our operations and implement our strategy could be harmed and our business may suffer.

Our business strategy depends, to a large extent, upon our branding and intellectual property.

We are in the process of filing for trademark protection with the USPTO with respect to our name, logo and product identifications. In the event that we are unable to secure trademark protection for our name, logo and product identifications or it is determined that our name, logo and product identifications infringe upon another person's intellectual property, we could suffer from related material adverse effects to our business.

Furthermore, we are in the process of filing patent(s) with the USPTO to protect our approach to cognitive training applicable to our products. In the event that we are unable to secure such patents, the marketability and viability of our products could be adversely affected. While it's unclear as to the overall patentability of our technology, we will continue to evaluate our overall intellectual property protection and proceed with viable protection opportunities in the future. While there can be no assurances that any final patents will be secured, management is cognizant of the value of protecting the Company's key business model differentiators and intends to continue to pursue protection of its intellectual property.

The Company is in the process of building or having built a series of online/mobile application cognitive training tools. In the event that any of these training tools infringe on any patent, trademark or other intellectual property of another person, the costs to us associated with remediating the infringement could be significant which could have a material adverse effect on the Company.

The loss of any of our athletic endorsements could significantly impair our ability to market our products.

Our business model depends on the growing and sustaining our athletic endorsements. As of the date of this filing, we had no active athletic endorsements. We intend to pursue athletic endorsements, although any such new endorsements are dependent on future funding. Because of the constraints for capital, management can provide no assurance that any new athletic endorsements will be obtained.

We operate in a highly competitive industry and competitors may compete more effectively.

There are several companies that have developed cognitive training platforms and deliver their solutions via the web and/or through mobile applications. Management believes that these early participants have educated consumers on the value proposition of cognitive training generally and have helped to pave the way for a differentiated solution from our Company. However, some of these competitors have longer operating histories and greater resources than us, and could focus their substantial financial resources to develop a competing business model and develop products or services that are more attractive to potential customers than what we offer. Our competitors may also offer similar products and services at prices below cost and/or devote significant sales forces to competing with us or attempt to recruit our key personnel by increasing compensation, any of which could improve their competitive positions. Any of these competitive factors could make it more difficult for us to attract and retain customers; cause us to lower our prices in order to compete, and reduce our market share and revenue, any of which could have a material adverse effect on our financial condition and operating results. We can provide no assurance that we will continue to effectively compete against our current competitors or additional companies that may enter our markets. We also expect to encounter competition in the form of potential customers electing to develop solutions or perform services internally rather than engaging an outside provider such as us.

We may be unable to manage our growth effectively.

We expect our business and operations to expand rapidly and we anticipate that further expansion of our organization and operations will be required to achieve our expectations for future growth. In order to manage our expanding operations, we will also need to improve our management, operational and financial controls and our reporting systems and procedures. All of these measures will require significant expenditures and will demand the attention of management. If we do not continue to enhance our management personnel and our operational and financial systems and controls in response to growth in our business, we could experience operating inefficiencies that could impair our competitive position and could increase our costs more than we had planned. If we are unable to manage growth effectively, our business, financial condition and operating results could be adversely affected.

We may be subject to liability claims for damages and other expenses not covered by insurance that could reduce our earnings and cash flows.

Our business, profitability and growth prospects could suffer if we pay damages or defense costs in connection with a liability claim that is outside the scope of any applicable insurance coverage. Currently, the Company has directors' and officer's insurance coverage. We intend to maintain, but do not yet have, general and product liability insurance. There is no assurance that we will be able to obtain insurance in amounts, or for a price, that will permit us to purchase desired amounts of insurance. Additionally, if our costs of insurance and claims increase, then our earnings could decline. Further, market rates for insurance premiums and deductibles have been steadily increasing, which may prevent us from being adequately insured. A product liability or negligence action in excess of insurance coverage could harm our profitability and liquidity.

We rely on outside consultants, employees and developers.

We will rely on the experience of outside consultants, employees and developers. In the event that one or more of these consultants or employees terminates employment with the Company, or becomes unavailable, suitable replacements will need to be retained and there is no assurance that such employees or consultants could be identified under conditions favorable to us.

We rely on strategic relationships to promote our products.

We rely on strategic partnerships with outside companies and individuals to promote and supply certain of our products and services, thus making the future success of our business particularly contingent on the efforts of other parties. An important part of our strategy is to promote acceptance of our products through technology and product alliances with certain distributors who we feel could assist us with our promotion strategies. Our dependence on outside distributors, however, raises potential risks with respect to the future success of our business. Our success is dependent on the successful completion and commercial deployment of our products and services and on the future commitment of our distributors to our products and technology.

RISKS RELATED TO OUR FINANCIAL CONDITION

Dependence on financing and losses for the foreseeable future.

Our independent registered public accounting firm has issued its audit opinion on our consolidated financial statements, including an explanatory paragraph as to substantial doubt with the respect to our ability to continue as a going concern. The accompanying consolidated financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America, assuming we will continue as a going concern, which contemplates the realization of assets and satisfaction of liabilities in the normal course of business. For the nine month period ended June 30, 2018, our net loss was approximately \$870,000. As of June 30, 2018, we had an accumulated deficit of approximately \$10 million and a working capital deficit of approximately \$2.4 million. These factors raise substantial doubt about our ability to continue as a going concern, within one year from the issuance date of this filing. Our ability to continue as a going concern is dependent on our ability to raise the required additional capital or debt financing to meet short and long-term operating requirements. We may also encounter business endeavors that require significant cash commitments or unanticipated problems or expenses that could result in a requirement for additional cash. If we raise additional funds through the issuance of equity or convertible debt securities, the percentage ownership of our current shareholders could be reduced, and such securities might have rights, preferences or privileges senior to our common stock. Additional financing may not be available upon acceptable terms, or at all. If adequate funds are not available or are not available on acceptable terms, we may not be able to take advantage of prospective business endeavors or opportunities, which could significantly and materially restrict our operations. If we are unable to obtain the necessary capital, we may have to cease operations.

Because we may never have net income from our operations, our business may fail.

We have no history of profitability from operations. There can be no assurance that we will ever operate profitably. Our success is significantly dependent on uncertain events, including successful development of our technologies, establishing satisfactory third party relationships, and distributing and selling our products. If we are unable to generate significant revenues from sales of our products, we will not be able to earn profits or continue operations. We can provide no assurance that we will generate any revenues or ever achieve profitability. If we are unsuccessful in addressing these risks, our business will fail and investors may lose all of their investment in our Company.

RISKS RELATED TO OUR COMMON STOCK AND ITS MARKET VALUE

We have limited capitalization and may require financing, which may not be available.

We have limited capitalization, which increases our vulnerability to general adverse economic and industry conditions, limits our flexibility in planning for or reacting to changes in our business and industry and may place us at a competitive disadvantage to competitors with sufficient or excess capitalization. If we are unable to obtain sufficient financing on satisfactory terms and conditions, we will be forced to curtail or abandon our plans or operations. Our ability to obtain financing will depend upon a number of factors, many of which are beyond our control.

A limited public trading market exists for our common stock, which makes it more difficult for our stockholders to sell their common stock in the public markets. Any trading in our shares may have a significant effect on our stock prices.

Although our common stock is listed for quotation on the OTC Marketplace, OTCQB, under the symbol "XSPT", the trading volume of our stock is limited and a market may not develop or be sustained. As a result, any trading price of our common stock may not be an accurate indicator of the valuation of our common stock. Any trading in our shares could have a significant effect on our stock price. If a more liquid public market for our common stock does not develop, then investors may not be able to resell the shares of our common stock that they have purchased and may lose all of their investment. No assurance can be given that an active market will develop or that a stockholder will ever be able to liquidate its shares of common stock without considerable delay, if at all. Many brokerage firms may not be willing to effect transactions in the securities. Even if an investor finds a broker willing to effect a transaction in our securities, the combination of brokerage commissions, state transfer taxes, if any, and any other selling costs may exceed the selling price. Furthermore, our stock price may be impacted by factors that are unrelated or disproportionate to our operating performance. These market fluctuations, as well as general economic, political and market conditions, such as recessions, interest rates or international currency fluctuations may adversely affect the market price and liquidity of our common stock.

Our stock price may be volatile.

The market price of our common stock is likely to be highly volatile and could fluctuate widely in price in response to various factors, many of which are beyond our control, including the following:

- our stock being held by a small number of persons whose sales (or lack of sales) could result in positive or negative pricing pressure on the market price for our common stock;
- actual or anticipated variations in our quarterly operating results;
- changes in our earnings estimates;
- our ability to obtain adequate working capital financing;
- changes in market valuations of similar companies;
- publication (or lack of publication) of research reports about us;
- changes in applicable laws or regulations, court rulings, enforcement and legal actions;
- loss of any strategic relationships;
- additions or departures of key management personnel;
- actions by our stockholders (including transactions in our shares);
- speculation in the press or investment community;
- increases in market interest rates, which may increase our cost of capital;
- changes in our industry;
- competitive pricing pressures;
- our ability to execute our business plan; and
- economic and other external factors

In addition, the securities markets have from time to time experienced significant price and volume fluctuations that are unrelated to the operating performance of particular companies. These market fluctuations may also materially and adversely affect the market price of our common stock.

Our stock is categorized as a penny stock. Trading of our stock may be restricted by the SEC's penny stock regulations which may limit a stockholder's ability to buy and sell our stock.

Our stock is categorized as a "penny stock", as that term is defined in SEC Rule 3a51-1, which generally provides that "penny stock", is any equity security that has a market price (as defined) less than \$5.00 per share, subject to certain exceptions. Our securities are covered by the penny stock rules, including Rule 15g-9, which impose additional sales practice requirements on broker-dealers who sell to persons other than established customers and accredited investors. The penny stock rules require a broker-dealer, prior to a transaction in a penny stock not otherwise exempt from the rules, to deliver a standardized risk disclosure document in a form prepared by the SEC which provides information about penny stocks and the nature and level of risks in the penny stock market. The broker-dealer also must provide the customer with current bid and offer quotations for the penny stock, the compensation of the broker-dealer and its salesperson in the transaction and monthly account statements showing the market value of each penny stock held in the customer's account. The bid and offer quotations, and the broker-dealer and salesperson compensation information, must be given to the customer orally or in writing prior to effecting the transaction and must be given to the customer in writing before or with the customer's confirmation. In addition, the penny stock rules require that prior to a transaction in a penny stock not otherwise exempt from these rules, the broker-dealer must make a special written determination that the penny stock is a suitable investment for the purchaser and receive the purchaser's written agreement to the transaction. These disclosure requirements may have the effect of reducing the level of trading activity in the secondary market for the stock that is subject to these penny stock rules. Consequently, these penny stock rules may affect the ability of broker-dealers to trade our securities and reduces the number of potential investors. We believe that the penny stock rules discourage investor interest in and limit the marketability of our common stock.

According to SEC Release No. 34-29093, the market for “penny stocks” has suffered in recent years from patterns of fraud and abuse. Such patterns include: (1) control of the market for the security by one or a few broker-dealers that are often related to the promoter or issuer; (2) manipulation of prices through prearranged matching of purchases and sales and false and misleading press releases; (3) boiler room practices involving high-pressure sales tactics and unrealistic price projections by inexperienced sales persons; (4) excessive and undisclosed bid-ask differential and markups by selling broker-dealers; and (5) the wholesale dumping of the same securities by promoters and broker-dealers after prices have been manipulated to a desired level, along with the resulting inevitable collapse of those prices and with consequent investor losses. The occurrence of these patterns or practices could increase the future volatility of our share price.

FINRA sales practice requirements may also limit a stockholder’s ability to buy and sell our stock.

In addition to the “penny stock” rules described above, FINRA has adopted rules that require that in recommending an investment to a customer, a broker-dealer must have reasonable grounds for believing that the investment is suitable for that customer. Prior to recommending speculative low-priced securities to their non-institutional customers, broker-dealers must make reasonable efforts to obtain information about the customer’s financial status, tax status, investment objectives and other information. Under interpretations of these rules, FINRA believes that there is a high probability that speculative low-priced securities will not be suitable for at least some customers. The FINRA requirements make it more difficult for broker-dealers to recommend that their customers buy our common stock, which may limit your ability to buy and sell our stock and have an adverse effect on the market for our shares.

To date, we have not paid any cash dividends and no cash dividends will be paid in the foreseeable future.

We do not anticipate paying cash dividends on our common stock in the foreseeable future and we may not have sufficient funds legally available to pay dividends. Even if the funds are legally available for distribution, we may nevertheless decide not to pay any dividends. We presently intend to retain all earnings for our operations.

The existence of indemnification rights to our directors, officers and employees may result in substantial expenditures by our Company and may discourage lawsuits against our directors, officers and employees.

Our bylaws contain indemnification provisions for our directors, officers and employees, although we have not entered into indemnification agreements with our officer and directors. The foregoing indemnification obligations could result in us incurring substantial expenditures to cover the cost of settlement or damage awards against directors and officers, which we may be unable to recoup. These provisions and resultant costs may also discourage us from bringing a lawsuit against directors and officers for breaches of their fiduciary duties, and may similarly discourage the filing of derivative litigation by our stockholders against our directors and officers even though such actions, if successful, might otherwise benefit us and our stockholders.

If we fail to develop or maintain an effective system of internal controls, we may not be able to accurately report our financial results or prevent financial fraud. As a result, current and potential stockholders could lose confidence in our financial reporting.

We are subject to the risk that sometime in the future, our independent registered public accounting firm could communicate to the Board of Directors that we have deficiencies in our internal control structure that they consider to be “significant deficiencies.” A “significant deficiency” is defined as a deficiency, or a combination of deficiencies, in internal controls over financial reporting such that there is more than a remote likelihood that a material misstatement of the entity’s financial statements will not be prevented or detected by the entity’s internal controls.

Effective internal controls are necessary for us to provide reliable financial reports and effectively prevent fraud. If we cannot provide reliable financial reports or prevent fraud, we could be subject to regulatory action or other litigation and our operating results could be harmed. We are required to document and test our internal control procedures to satisfy the requirements of Section 404 of the Sarbanes-Oxley Act of 2002 (the “Sarbanes-Oxley Act” or “SOX”), which requires our management to annually assess the effectiveness of our internal control over financial reporting.

We currently are not an “accelerated filer” as defined in Rule 12b-2 under the Securities Exchange Act of 1934, as amended. Section 404 of the Sarbanes-Oxley Act of 2002 (“Section 404”) requires us to include an internal control report with our Annual Report on Form 10-K. That report must include management’s assessment of the effectiveness of our internal control over financial reporting as of the end of the fiscal year. This report must also include disclosure of any material weaknesses in internal control over financial reporting that we have identified. As of September 30, 2017, the management of the Company assessed the effectiveness of the Company’s internal control over financial reporting based on the criteria for effective internal control over financial reporting established in Internal Control - Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (“COSO”) and SEC guidance on conducting such assessments. Management concluded, during the fiscal year ended September 30, 2017, that the Company’s internal controls and procedures were not effective to detect the inappropriate application of U.S. GAAP rules. Management realized there were deficiencies in the design or operation of the Company’s internal control that adversely affected the Company’s internal controls which management considers to be material weaknesses. A material weakness in the effectiveness of our internal controls over financial reporting could result in an increased chance of fraud and the loss of customers, reduce our ability to obtain financing and require additional expenditures to comply with these requirements, each of which could have a material adverse effect on our business, results of operations and financial condition.

Our intended business, operations and accounting are expected to be substantially more complex than they have been in the past. It may be time consuming, difficult and costly for us to develop and implement the internal controls and reporting procedures required by the Sarbanes-Oxley Act. We may need to hire additional financial reporting, internal controls and other finance personnel in order to develop and implement appropriate internal controls and reporting procedures. If we are unable to comply with the internal controls requirements of the Sarbanes-Oxley Act, then we may not be able to obtain the independent accountant certifications required by such act, which may preclude us from keeping our filings with the SEC current.

If we are unable to maintain the adequacy of our internal controls, as those standards are modified, supplemented, or amended from time to time, we may not be able to ensure that we can conclude on an ongoing basis that we have effective internal control over financial reporting in accordance with Section 404. Failure to achieve and maintain an effective internal control environment could cause us to face regulatory action and cause investors to lose confidence in our reported financial information, either of which could adversely affect the value of our common stock.

A sale of a substantial number of shares of our common stock may cause the price of our common stock to decline.

If our stockholders sell substantial amounts of our common stock in the public market, including shares issued upon the exercise of outstanding options or warrants, the market price of our common stock could fall. These sales also may make it more difficult for us to sell equity or equity-related securities in the future at a time and price that we deem reasonable or appropriate. Amendments to Rule 144, effective in February 2008, also substantially reduce holding periods and eliminate burdens such as filing notices sale for non-affiliated holders. The amendments to Rule 144 are applicable to the purchasers of securities prior to and following the effective date of the amendments.

FORWARD LOOKING STATEMENTS

This prospectus contains “forward-looking statements”. Such forward-looking statements involve known and unknown risks, uncertainties and other factors which may cause the actual results, performance or achievements of the Company, or industry results, to be materially different from any future results, performance or achievements expressed or implied by such forward-looking statements. When used in this prospectus, statements that are not statements of current or historical fact may be deemed to be forward-looking statements. Without limiting the foregoing, the words “plan”, “intend”, “may,” “will,” “expect,” “believe”, “could,” “anticipate,” “estimate,” or “continue” or similar expressions or other variations or comparable terminology are intended to identify such forward-looking statements. All statements other than statements of historical fact included in this prospectus regarding our financial position, business strategy and plans or objectives for future operations are forward-looking statements. Without limiting the broader description of forward-looking statements above, we specifically note, without limitation, that statements regarding the preliminary nature of the clinical program results and the potential for further product development, that involve known and unknown risks, delays, uncertainties and other factors not under our control, the requirement of substantial future testing, clinical trials, regulatory reviews and approvals by the Food and Drug Administration and other regulatory authorities prior to the commercialization of products under development, and our ability to manufacture and sell any products, gain market acceptance earn a profit from sales or licenses of any drugs or our ability to discover new drugs in the future are all forward-looking in nature. These risks and other factors are discussed in our filings with the Securities and Exchange Commission. Readers are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date hereof. Except as required by law, the Company undertakes no obligation to update any forward-looking statements, whether as a result of new information, future events or otherwise.

USE OF PROCEEDS

This prospectus relates to shares of our common stock that may be offered and sold from time to time by Triton. We will not receive any proceeds from the sale of shares of our Common Stock by the Selling Stockholder. However, we will receive proceeds from the sale of Purchase Notice Shares to Triton Funds LP up to \$1,000,000 under the Purchase Agreement. See “Plan of Distribution” elsewhere in this prospectus for more information.

We expect to use any proceeds that we receive under the Equity Purchase Agreement for general corporate purposes.

DILUTION

The sale of our Common Stock to Triton in accordance with the Equity Purchase Agreement will have a dilutive impact on our stockholders. As a result, our net loss per share could decrease in future periods and the market price of our Common Stock could decline. In addition, the lower our stock price is at the time we exercise our put option, the more shares of our Common Stock we will have to issue to Triton pursuant to the Equity Purchase Agreement. If our stock price decreases during the pricing period, then our existing stockholders would experience greater dilution.

If you invest in our Common Stock, you will experience dilution to the extent of the difference between the price per share you pay in this offering and the net tangible book value per share of our Common Stock immediately after this offering. Our net tangible book value as of June 30, 2018 was approximately a deficit of \$2,575,128, or \$(0.072) per share of our \$0.001 par value Common Stock. Net tangible book value per share as of June 30, 2018 is equal to our total tangible assets minus total liabilities, all divided by the number of shares of Common Stock outstanding as of June 30, 2018.

After giving effect to the issuance and sale of 5,400,000 shares of our Common Stock in this offering at the offering price of \$0.20 per share, and after deducting the estimated offering expenses payable by us, our adjusted net tangible book value would have been approximately a deficit of \$(1,605,252), or approximately \$(0.039) per share of Common Stock, as of June 30, 2018. This represents an immediate increase in the net tangible book value of approximately \$0.033 per share to our existing stockholders, and an immediate dilution of approximately \$0.239 per share to investors in this offering. The following table illustrates this calculation on a per share basis.

Public offering price per share		\$	0.200
Net tangible book value per share as of June 30, 2018	\$	(0.072)	
Increase in net tangible book value per share attributable to this offering	\$	0.033	
As adjusted net tangible book value per share as of June 30, 2018 after giving effect to this offering	\$	(0.039)	
Dilution per share to investors purchasing shares in this offering	\$	0.239	

The number of shares of our Common Stock shown above outstanding immediately before and after this offering is based on 35,640,140 and 41,040,140 shares outstanding, respectively, as of June 30, 2018.

The above illustration of dilution per share to investors participating in this offering assumes no conversion of convertible notes or exercise of outstanding warrants to purchase shares of our Common Stock. The conversion of convertible notes or exercise of outstanding warrants having a conversion price per share or exercise price per share that is less than the offering price per share will increase dilution to investors in this offering.

SELLING STOCKHOLDER

This prospectus relates to the possible resale by the selling stockholder, Triton, of shares of common stock that have been or may be issued to Triton pursuant to the Purchase Agreement. We are filing the registration statement of which this prospectus forms a part pursuant to the provisions of the Registration Rights Agreement, which we entered into with Triton on August 29, 2018 concurrently with our execution of the Purchase Agreement, in which we agreed to provide certain registration rights with respect to sales by Triton of the shares of our common stock that have been or may be issued to Triton under the Purchase Agreement.

Triton, as the selling stockholder, may, from time to time, offer and sell pursuant to this prospectus any or all of the shares that we have sold or may sell to Triton under the Purchase Agreement. The selling stockholder may sell some, all or none of its shares. We do not know how long the selling stockholder will hold the shares before selling them, and we currently have no agreements, arrangements or understandings with the selling stockholder regarding the sale of any of the shares.

The following table presents information regarding the selling stockholder and the shares that it may offer and sell from time to time under this prospectus. The table is prepared based on information supplied to us by the selling stockholder, and reflects its holdings as of October 24, 2018. Neither Triton nor any of its affiliates has held a position or office, or had any other material relationship, with us or any of our predecessors or affiliates. As used in this prospectus, the term “selling stockholder” includes Triton and any donees, pledgees, transferees or other successors in interest selling shares received after the date of this prospectus from Triton as a gift, pledge or other non-sale related transfer. Beneficial ownership is determined in accordance with Rule 13d-3(d) promulgated by the Securities and Exchange Commission (the “SEC”) under the Securities Exchange Act of 1934, as amended (the “Exchange Act”). The percentage of shares beneficially owned prior to the offering is based on 36,740,140 shares of our common stock actually outstanding as of October 24, 2018.

Name of Selling Stockholder	Shares Owned by Selling Stockholder before the Offering ⁽¹⁾	Total Shares Offered in the Offering	Number of Shares to Be Owned by Selling Stockholder After the Offering and Percent of Total Issued and Outstanding Shares ⁽¹⁾	
			# of Shares ⁽²⁾	% of Class ⁽²⁾
Triton Funds LP (1)	400,000(2)		5,400,000(3)	13 %

(1) Triton Funds LP is not a licensed broker dealer or an affiliate of a licensed broker dealer.

(2) Represents 400,000 shares of our common stock issued to Triton on August 29, 2018 as a donation which shares are covered by the registration statement that includes this prospectus. See the description under the heading “The Triton Transaction” for more information about the Purchase Agreement.

(3) Based on 36,700,140 outstanding shares of our common stock as of October 24, 2018, which includes 400,000 shares of our common stock issued to Triton on August 29, 2018 as a donation. Although we may at our discretion elect to issue to Triton up to an aggregate amount of \$1,000,000 of our common stock under the Purchase Agreement, other than the shares described in the immediately preceding sentence, such shares are not included in determining the percentage of shares beneficially owned before this offering.

THE TRITON TRANSACTION

General

On August 29, 2018, we entered into a purchase agreement with Triton, which we refer to in this prospectus as the Purchase Agreement, pursuant to which Triton has agreed to purchase from us up to \$1,000,000 of our common stock (subject to certain limitations). Also on August 29, 2018, we entered into a Registration Rights Agreement, or the Registration Rights Agreement, with Triton, pursuant to which we have filed with the SEC the registration statement that includes this prospectus to register for resale under the Securities Act of 1933, as amended, or the Securities Act, the shares that have been or may be issued to Triton under the Purchase Agreement.

Other than 400,000 shares of our common stock that we have already issued to Triton as a donation, we do not have the right to commence any further sales to Triton under the Purchase Agreement until the SEC has declared effective the registration statement of which this prospectus forms a part. Except as described in this prospectus, there are no trading volume requirements or restrictions under the Purchase Agreement, and we will control the timing and amount of any sales of our common stock to Triton. The purchase price of the shares that may be sold to Triton under the Purchase Agreement will be based on 70% of the volume-weighted average price of our common stock during the 5 trading days prior to a closing date. The purchase price per share will be equitably adjusted for any reorganization, recapitalization, non-cash dividend, stock split, or other similar transaction occurring during the business days used to compute such price. Triton may not assign or transfer its rights and obligations under the Purchase Agreement.

As of October 24, 2018, there were 36,740,140 shares of our common stock outstanding, of which 22,071,893 shares were held by non-affiliates, including the 400,000 donation shares that we have already issued to Triton. The Purchase Agreement provides that we may sell up to \$1,000,000 of our common stock to Triton, 5,400,000 shares of our common stock are being offered under this prospectus, which represents (i) 400,000 shares that we issued to Triton as a donation and (ii) an additional 5,000,000 shares which may be issued to Triton in the future under the Purchase Agreement. Triton may not assign or transfer its rights and obligations under the Purchase Agreement. If all of the 5,400,000 shares offered by Triton under this prospectus were issued and outstanding as of the date hereof, such shares would represent 13% of the total number of shares of our common stock outstanding and 18% of the total number of outstanding shares held by non-affiliates, in each case as of the date hereof. The number of shares ultimately offered for resale by Triton is dependent upon the number of shares we sell to Triton under the Purchase Agreement.

Our Termination Rights

We have the unconditional right, upon a material breach by Triton, to give notice to Triton to terminate the Purchase Agreement. In addition, the Purchase Agreement will automatically terminate when the commitment amount of \$1,000,000 of Purchase Notice Shares have been purchased, December 31, 2018, the date this Registration Statement is no longer effective, or in the event of bankruptcy proceedings by or against us.

No Short-Selling or Hedging by Triton

Triton has agreed that neither it nor any of its affiliates shall engage in any direct or indirect short-selling or hedging of our common stock during any time prior to the termination of the Purchase Agreement.

PLAN OF DISTRIBUTION

The Common Stock offered by this prospectus is being offered by the Selling Stockholder, Triton. The common stock may be sold or distributed from time to time by the selling stockholder directly to one or more purchasers or through brokers, dealers, or underwriters who may act solely as agents at market prices prevailing at the time of sale, at prices related to the prevailing market prices, at negotiated prices, or at fixed prices, which may be changed. The sale of the common stock offered by this prospectus could be effected in one or more of the following methods:

[Table of Contents](#)

- ordinary brokers' transactions;
- transactions involving cross or block trades;
- through brokers, dealers, or underwriters who may act solely as agents
- "at the market" into an existing market for the common stock;
- in other ways not involving market makers or established business markets, including direct sales to purchasers or sales effected through agents;
- in privately negotiated transactions; or
- any combination of the foregoing.

In order to comply with the securities laws of certain states, if applicable, the shares may be sold only through registered or licensed brokers or dealers. In addition, in certain states, the shares may not be sold unless they have been registered or qualified for sale in the state or an exemption from the state's registration or qualification requirement is available and complied with.

Triton is an "underwriter" within the meaning of Section 2(a)(11) of the Securities Act.

Triton has informed us that it intends to use an unaffiliated broker-dealer to effectuate all sales, if any, of the common stock that it may purchase from us pursuant to the Purchase Agreement. Such sales will be made at prices and at terms then prevailing or at prices related to the then current market price. Each such unaffiliated broker-dealer will be an underwriter within the meaning of Section 2(a)(11) of the Securities Act. Triton has informed us that each such broker-dealer will receive commissions from Triton that will not exceed customary brokerage commissions. In compliance with the guidelines of the Financial Industry Regulatory Authority, Inc., or FINRA, the maximum consideration or discount to be received by any FINRA member or independent broker dealer may not exceed 8% of the aggregate amount of the securities offered pursuant to this prospectus.

Brokers, dealers, underwriters or agents participating in the distribution of the shares as agents may receive compensation in the form of commissions, discounts, or concessions from the selling stockholder and/or purchasers of the common stock for whom the broker-dealers may act as agent. The compensation paid to a particular broker-dealer may be less than or in excess of customary commissions. Neither we nor Triton can presently estimate the amount of compensation that any agent will receive.

We know of no existing arrangements between Triton or any other stockholder, broker, dealer, underwriter or agent relating to the sale or distribution of the shares offered by this prospectus. At the time a particular offer of shares is made, a prospectus supplement, if required, will be distributed that will set forth the names of any agents, underwriters or dealers and any compensation from the selling stockholder, and any other required information.

We will pay the expenses incident to the registration, offering, and sale of the shares to Triton. We have agreed to indemnify Triton and certain other persons against certain liabilities in connection with the offering of shares of common stock offered hereby, including liabilities arising under the Securities Act or, if such indemnity is unavailable, to contribute amounts required to be paid in respect of such liabilities. Triton has agreed to indemnify us against liabilities under the Securities Act that may arise from certain written information furnished to us by Triton specifically for use in this prospectus or, if such indemnity is unavailable, to contribute amounts required to be paid in respect of such liabilities.

Triton has represented to us that at no time prior to the Purchase Agreement has Triton or its agents, representatives or affiliates engaged in or effected, in any manner whatsoever, directly or indirectly, any short sale (as such term is defined in Rule 200 of Regulation SHO of the Exchange Act) of our common stock or any hedging transaction, which establishes a net short position with respect to our common stock. Triton agreed that during the term of the Purchase Agreement, it, its agents, representatives or affiliates will not enter into or effect, directly or indirectly, any of the foregoing transactions.

We have advised Triton that it is required to comply with Regulation M promulgated under the Exchange Act. With certain exceptions, Regulation M precludes the selling stockholder, any affiliated purchasers, and any broker-dealer or other person who participates in the distribution from bidding for or purchasing, or attempting to induce any person to bid for or purchase any security which is the subject of the distribution until the entire distribution is complete. Regulation M also prohibits any bids or purchases made in order to stabilize the price of a security in connection with the distribution of that security. All of the foregoing may affect the marketability of the securities offered by this prospectus.

This offering will terminate on the date that all shares offered by this prospectus have been sold by Triton or may be sold by Triton without restriction under Rule 144(b)(1)(i) under the Securities Act.

Our common stock is quoted on the OTC Markets Pink Tier under the symbol “XSPT”.

BUSINESS

Business Overview

XSport Global, Inc. (the “Company”, “XSport Global”, “we”, “us” or “our”), formerly known as HeadTrainer, Inc. (“HeadTrainer”), was incorporated on December 10, 2017 under the laws of the State of Wyoming. XSport Global is a leading youth and collegiate sports technology and media holding company focused on developing disruptive sports-centric technologies and related media projects around the world, where sports industries and players are highly regarded. Backed by a roster of professional athletes and brand ambassadors, we seek to help athletes achieve their full potential through cognitive training, careers, genetics, recruiting and more. Our flagship company, HeadTrainer, was established to create, develop, promote, market, produce, and distribute online/mobile application cognitive training tools initially intended for the youth, millennial, and adult sports markets. The mobile platform was designed and developed in careful coordination with a team of professionals from the fields of science and medicine, and world-class athletes from a variety of sports.

On September 11, 2017, the Company executed an Agreement and Plan of Merger (the “Merger Agreement”) with HeadTrainer, Inc., a North Carolina corporation, and HT Acquisition Corp., a Wyoming corporation and wholly-owned subsidiary of HeadTrainer, Inc. (the “Acquisition”) whereby the Acquisition was merged with and into the Company (the “Merger”) in consideration for 17,325,000 newly-issued post-split shares of Common Stock of the Company (the “Merger Shares”). As a result of the Merger, HeadTrainer became a wholly-owned subsidiary of TeleHealthCare, and following the consummation of the Merger and giving effect to the retirement of approximately 15,666,666 post-split shares (leaving approximately 7,957,666 post-split shares remaining prior to the Merger), and the sale of approximately 3,451,322 post-split shares at the Merger to accredited investors, the stockholders of HeadTrainer, Inc. became beneficial owners of approximately 61% of our issued and outstanding common stock.

As a result of the Merger, the 17,325,000 newly-issued post-split shares were issued to the pre-existing HeadTrainer shareholders for all of the outstanding capital stock of HeadTrainer. HeadTrainer assumed net liabilities totaling \$194,632, with the remaining assets and liabilities assumed by MD Capital Advisors, Inc., a Company owned by TeleHealthCare’s former CEO, in a Split-Off Agreement.

At the effective time of the Merger, our Board of Directors and officers were reconstituted by the resignation of Derek Cahill and the appointment of Bob Finigan, Maurice Durschlag and Jay Bilas. Subsequently, on October 16, 2017, Mr. Jay Bilas resigned from our Board of Directors.

At the Merger, our Board of Directors approved an amendment to our Articles of Incorporation (the “Amendment”) to (i) change our name to HeadTrainer, Inc.; (ii) to increase the number of our authorized shares of capital stock to 510,000,000 shares, of which 500,000,000 shares shall be common stock and 10,000,000 shares shall be blank check preferred stock; and (iii) to provide that the Company may take action without a meeting on the written consent of the holders of a majority of the shares entitled to vote at such meeting.

As a result of the Merger with HeadTrainer, our business plan has shifted to mobile applications for athletes of all ages and all skill levels, designed to engage and improve cognitive abilities. We are focused on developing a unique, industry-leading iOS and Android cognitive training mobile device application platform called HeadTrainer that we believe is differentiated from other players in the cognitive training space with a primary focus on the youth sports markets. We are in evaluation of our core system architecture, and expect to be in development of ten to fifteen (10-15) mobile games/exercises in second quarter. The development and testing will be ongoing, and we are expecting to launch the product in beta form in the third quarter of calendar 2018.

Our Product

We have developed a product that consists of i) a mobile device application (“App”) that provides a suite of cognitive training exercises available in iOS and Android versions and ii) integrates into a server-based platform that can customize user experiences, track progress, provide education, and offer an administrative console for the user (the “Product”). We are continuing to develop our Product platform with the goal that it be flexible and interesting to a wide audience. The cognitive training tools are intended to serve primarily the youth sports market (ages 8-18) and the high sports interest market (ages 13-29) along with support for an adult category. The exercises incorporate sports themes and were designed with graphics that appeal to the target demographic.

With regard to the cognitive training market, according to a 2012 study by SharpBrains, a research firm that tracks the cognitive training market, the market for brain health software grew from \$295,000,000 in annual revenues in 2009 to more than \$480,000,000 at the end of 2010. Experts estimate that the market will exceed \$3,000,000,000 by 2020. Management believes that the industry estimates predict a healthy environment for the launch of the Products.

We anticipate designing our products so that they are available in multiple languages to serve the international community as well as the United States. The cognitive training exercises can be adapted to other languages, because they are not verbally intensive. Management initially launched in English, but will be exploring additional release opportunities in several countries as product acceptance accelerates.

Revenue Model

We anticipate earning revenue from our HeadTrainer Product through a subscription-based pricing model. The industry standard for cognitive training companies is a subscription-based model. We examined specific pricing strategies and have not yet determined our market tolerances, but expect to test several pricing models in the beta test launch, to determine the most effective conversion rate and adoption, with additional revenue opportunities through in-game currencies and purchases through customization of avatars, etc. We believe this competitively prices our Product in order to stimulate trials and retain users after being exposed to the training platform experience. These price points are projected based on our analysis of standard pricing for similar products; however, there can be no assurance that these price points will be palatable to the purchasing public, and we may have to adjust these prices or develop different pricing or income strategy to attract customers. While we currently anticipate generating our primary revenue from the sale of subscriptions to our Products, we also may earn revenue in the future from advertising and branded sponsorships, as well as strategic relationships with other sports related entities and products and other forms of revenue generation.

The Shift Now division operates on a retainer model with time and materials billed to clients on a monthly basis. Terms and conditions are outlined in a standard service agreement with deliverables, timelines, and expectations established, in writing, at the beginning of a project. Revenue sources include creative services, website development, copy writing, digital ad placement, and consulting services.

Marketing

We have worked with a variety of marketing partners, including Signature Sports Group to design a comprehensive marketing campaign to support the launch of the Product and continuing operations of the Company. The multi-faceted program incorporates branding strategies, trademark promotion, image development and advertising materials to establish a consistent image. Importantly, the plan included a multi-channel execution strategy designed to expose the Product to millions of potential users upon launch through endorsement-supported channels. We believe this execution strategy will resonate with our potential users and lead to strong adoption, as long as we have the necessary cash to execute on the marketing channels and leverage the initial investment in our endorsers. We are planning to market our Products through campaigns, leveraging formal endorsement relationships with professional athletes and sports celebrities on social networks (Facebook, Twitter, Instagram). We also intend to build awareness and adoption through efforts directed at youth sports events, youth sports camps, and sports academies. We also intend to partner with high profile entities (such as professional sports franchises, major universities, leading entertainment companies, professional athletes, leading medical institutions, sports camps, and sports academies) that will help facilitate immediate brand awareness. However in order to successfully execute on this plan, we will need to have the necessary cash to fund the activation strategy. Finally, the Company expects to market through more traditional public relations channels and paid digital channels. As we discover the right mix of traction channels, management will optimize the marketing mix spend such that it is generating the most efficient delivery of App downloads.

Some of the key elements of the Company's marketing plan revolve around the Company delivering "premium cognitive development exercises" to users through the following:

- The Brand/Attributes: The following brand attributes and image will be represented to the target audience – performance; elite; training; brain; science/research; sport/competition; hip/modern; global and academic.
- The Brand/Brand Positioning: HeadTrainer plans to be a brand that delivers premium cognitive development exercises specifically designed for the training of athletes to improve performance as it relates to an individual's overall cognitive capabilities for their own competitive environment with the intent of becoming synonymous with athletic brain training.
- The Target Market: The key target audiences can be defined as (i) Primary market/user group – youth sports market (ages 8-18) and high sports interest market (13-29), (ii) Secondary market (Purchasers/Influencers) – Parents and Coaches of Athletes and (iii) Tertiary market – other athletes, competition and brain-training enthusiasts
- Overarching Communication Idea: Our communication idea will be the broad creative platform that brings the brand positioning to life – "Team HeadTrainer." Team HeadTrainer plans to be comprised of a group of elite athletes, sports spokespersons, trainers, educators, sports psychologists and collegiate properties who will bring awareness, encourage trial and influence subscribers to adopt, use and promote the Product as integrated partners in our marketing strategy. Team HeadTrainer will represent the overall sports landscape, crossing sports, age, nationality, gender and race. Initial athlete focus will be on the core four U.S. participation team sports of soccer, baseball, basketball, and football, while also reaching out to and adding athletes participating in other action team and individual sports to ensure that every athlete feels that the Product is for them. The elite athletes and spokespersons will be expected to be at the forefront of their sports/profession, be active in social media, have crossover appeal, be great communicators, be credible and authentic to the brand and be considered as "safe" as possible with their reputation on and off the court/field.

We intend to reach the users and their influencers online and through their mobile devices and through the use of the following:

- Social Media - Accounts of the Company and Team HeadTrainer members will promote and educate our target markets and the secondary and tertiary markets on the value of the Product and brain-training exercises.
- Videos – We intend to highlight each member of Team HeadTrainer and emphasize the importance of brain training from a number of different perspectives. The videos will be produced in a socially sharable and viral format.
- Website – The Company has developed an initial comprehensive, one-stop platform where users and purchasers/parents can go to get information as it relates to the Company and the importance of brain training. Supported research documentation will be available as well as information on all Team HeadTrainer members, our videos, step-by-step guides for the Product, testimonials, HeadTrainer in the News, social media links and future collegiate or sports organization associations.
- Cause Marketing – We currently anticipate that the Company will give back to the communities we serve by starting a cyberbullying awareness campaign. Team HeadTrainer members will participate to create a powerful message on the prevalence and prevention of cyber-bullying. Our users are online, on mobile devices and social networks where they are most at risk for cyber-bullying. The campaign is expected to be viral and a public relations and social-media driven. We anticipate kicking this campaign off in the 2nd or 3rd quarter of calendar 2018 in conjunction with the launch of future versions of the App.
- Other – Additional tactics like paid media (digital and traditional) as well as sponsorships, league associations, etc. will be continually evaluated and pursued when determined to be a good fit for the Company.

Competition

There are several companies that have developed cognitive training platforms and deliver their solutions via the web and/or through mobile apps. Management believes that these early participants have educated consumers on the value proposition of cognitive training generally and have helped to pave the way for a differentiated solution from the Company. Management believes there are several key differentiators to the Product as compared to other cognitive training programs.

- The Product was developed with sports themes and is targeted primarily at the youth sports market, including youth ages 8-18, high sports interest ages 12-29, as well as adults. We believe that competitive, accomplished athletes in these demographics will embrace the possibility of enhancing their cognitive performance skills to get an extra edge on the competition.
- The Company has incorporated an audio interference/distraction component replicating life-like sporting event distractions and created a “playing” environment that features additional complicating elements to the training.
- The Company will leverage its existing and future endorsement contracts with professional athletes and celebrities to market the product through existing social media channels. We believe this will be one of the most cost effective ways to reach its intended audience but it will not be the only traction channel.
- In addition to the social marketing strategies, the youth sports market will also be addressed through sports camps and dedicated sports organizations. However, the Company will need to have the necessary cash in order to activate such youth sports channels.

While it’s unclear to the overall patentability of our technology, we will continue to evaluate our overall intellectual property protection and proceed with viable protection opportunities in the future. There can be no assurances that a final utility patent will be secured, and we are cognizant of the value of protecting key business model differentiators and intends to continue to pursue protection of our intellectual property.

Research and Development

Total research and development was \$6,905 and \$71,800 during the periods ended June 30, 2018 and 2017, respectively.

Intellectual Property

We currently own all ideas, concepts, trademark applications, copyright, provisional patents, trade secrets, and other intellectual capital associated with HeadTrainer. The URLs, trademarks and patents of the Corporation set forth above are referred to herein as the “Intellectual Property.”

Pursuant to a contribution agreement entered into by and between our director, Mr. Maurice E. Durschlag and HIP, LLC, the Intellectual Property has been assigned to HIP, LLC. The Intellectual Property owned by HIP, LLC has been transferred by HIP, LLC to the Company in exchange for a royalty agreement wherein we will pay to HIP, LLC a royalty based on the gross sales of the Product by the Company.

Government Approvals and Regulations

We are not subject to any governmental regulation and are not required to maintain any specific licenses.

Subsidiaries

The Company has one wholly-owned subsidiary also named HeadTrainer, Inc.

Employees

As of September 30, 2017, we had 2 full-time employees and no part-time employees. We currently utilize a variety of outsourced resources for product development, marketing, technology development, scientific research, finance and accounting, legal, and business development. We intend to hire additional staff and to engage consultants in general administration on an as-needed basis. We also intend to engage experts in operations, finance and general business to advise us in various capacities. None of our employees are covered by a collective bargaining agreement, and we believe our relationship with our employees is good to excellent.

Our future success depends, in part, on our ability to continue to attract, retain and motivate highly qualified technical, marketing, and management personnel and, as of the end of the period covered by this report and as of the date of filing, we continue to rely on the services of independent contractors for much of our sales/marketing. We believe technical, accounting and other functions are also critical to our continued and future success.

Registered Agent

Our registered agent is Incorp Services, Inc., 1910 Thomas Avenue, Cheyenne, WY 82001.

PROPERTY

Our principal executive offices are located at 1800 Camden Road, #107-196, Charlotte, NC 28203. We entered into a lease agreement in August 2017 for a total monthly rental of \$1,995 and a term of 24 months. Shift Now's office is located in Greensboro, North Carolina and is leased at the rate of \$2,500 per month through June of 2019. We believe this space is adequate for our current needs.

LEGAL PROCEEDINGS

We may be involved in legal proceedings in the ordinary course of our business. Although our management cannot predict the ultimate outcome of these legal proceedings with certainty, it believes that the ultimate resolution of our legal proceedings, including any amounts we may be required to pay, will not have a material effect on our consolidated financial statements. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion and analysis should be read with the financial statements and accompanying notes included elsewhere in this Prospectus and the information described under the captions “*Business*,” “*Risk Factors*” and “*Special Note Regarding Forward Looking Statements*” above. The following discussion is intended to assist the reader in understanding and evaluating our financial position.

Corporate History

XSport Global, Inc. (the “Company,” “XSport Global,” “we,” “us” or “our”), formerly known as HeadTrainer, Inc. (“HeadTrainer”), was incorporated on December 10, 2012 under the laws of the State of Wyoming. We are a leading youth and collegiate sports technology and media holding company focused on developing disruptive sports-centric technologies and related media projects around the world, where sports industries and players are highly regarded. Backed by a roster of professional athletes and brand ambassadors, we seek to help athletes achieve their full potential through cognitive training, careers, genetics, recruiting and more. Our flagship company, HeadTrainer, was established to create, develop, promote, market, produce, and distribute online/mobile application cognitive training tools initially intended for the youth, millennial, and adult sports markets. The mobile platform was designed and developed in careful coordination with a team of professionals from the fields of science and medicine and world-class athletes from a variety of sports.

On September 11, 2017, TeleHealthCare executed an Agreement and Plan of Merger (the “Merger Agreement”) with HeadTrainer, Inc., a North Carolina corporation, and HT Acquisition Corp., a Wyoming corporation and wholly-owned subsidiary of HeadTrainer, Inc. (the “Acquisition”) whereby the Acquisition was merged with and into the Company (the “Merger”) in consideration for 17,325,000 post-split newly-issued shares of Common Stock of the Company (the “Merger Shares”). As a result of the Merger, HeadTrainer became a wholly-owned subsidiary of TeleHealthCare, and following the consummation of the Merger and giving effect to the retirement of approximately 15,666,666 shares (leaving approximately 7,957,666 post-split shares remaining prior to the Merger), and the sale of approximately 3,451,322 post-split shares at the Merger to accredited investors, the stockholders of HeadTrainer, Inc. became beneficial owners of approximately 61% of our issued and outstanding common stock.

As a result of the Merger, the 17,325,000 post-split newly-issued shares were issued to the pre-existing HeadTrainer shareholders for all of the outstanding capital stock of HeadTrainer. HeadTrainer assumed net liabilities totaling \$194,632, with the remaining assets and liabilities assumed by MD Capital Advisors, Inc., a Company owned by TeleHealthCare’s former CEO, in a split-off agreement.

At the effective time of the Merger, our Board of Directors and officers were reconstituted by the resignation of Derek Cahill and the appointment of Bob Finigan, Maurice Durschlag and Jay Bilas. Subsequently, on October 16, 2017, Mr. Jay Bilas resigned from our Board of Directors.

For accounting purposes, HeadTrainer was deemed to be the accounting acquirer in the transaction and, consequently, the transaction was treated as a recapitalization of the Company. Accordingly, HeadTrainer’s assets, liabilities and results of operations became the historical consolidated financial statements of the Company and the Company’s assets, liabilities and results of operations were consolidated with HeadTrainer effective as of the date of the Merger. No step-up in basis or intangible assets or goodwill was recorded in the transaction.

Prior to the consummation of the Merger, our Board of Directors approved an amendment to our Articles of Incorporation (the “Amendment”) to (i) change our name to HeadTrainer, Inc.; (ii) to increase the number of our authorized shares of capital stock to 510,000,000 shares, of which 500,000,000 shares shall be common stock and 10,000,000 shares shall be blank check preferred stock; and (iii) to provide that the Company may take action without a meeting on the written consent of the holders of a majority of the shares entitled to vote at such meeting.

On August 28, 2017, our Board of Directors approved a reverse stock split of our issued and authorized shares of common on the basis of three (3) shares for one (1) new share. Our shareholders approved the reverse split through a special meeting held on November 2, 2017. FINRA effected the reverse stock split in July 2018. Our authorized common stock will remain unchanged with 500,000,000 shares of common stock. No fractional shares will be issued in connection with the reverse stock split. Additionally, the Board of Directors and shareholders approved the authorization of 10,000,000 shares of blank check preferred stock with a par value of \$0.001 per share. All share or per share information included in these unaudited condensed consolidated financial statements gives effect to the reverse split.

On March 22, 2018, the Board of Directors and Majority Shareholders approved an amendment to our Articles of Incorporation to change our name to XSport Global, Inc.

On May 16, 2018, we again amended our Articles of Incorporation changing the name of the Company to “XSport Global, Inc.” The amendment was adopted by written consent of our Board of Directors and majority shareholders of the Company.

On August 28, 2018, the Company acquired all of the outstanding capital stock (the “Shares”) of Shift Now, Inc., a North Carolina corporation (“Shift Now”). The purchase price for the Shares was 700,000 shares of our Common Stock and \$30,000 consisting of two promissory notes for \$15,000 each (the “Notes”). The first promissory note for \$15,000 is to be delivered at closing and due within 12 months of the closing. The second promissory note for \$15,000 is to be delivered to the Seller no later than the 12 month anniversary of the closing and due within 12 months after issuance. Additionally, the Company assumed the Shift Now’s existing line of credit made in favor of American National Bank in the current amount of \$100,000. Also on August 28, 2018, the Company entered into an employment agreement (the “Employment Agreement”) with Kristi Griggs, the former principal shareholder of Shift Now (the “Employee”) to serve as Executive Vice President of the Company’s Shift Now Division. The Employment Agreement provides that upon consummation of the Merger, Employee shall be entitled to receive a salary of \$100,000 per year plus a bonus of 5% of net revenue of clients managed by Employee or 1.5% of total gross revenues of Shift Now to be paid on the last pay period of the month for the prior month’s activity. Additionally, the Company shall issue the Employee 150,000 shares of Common Stock at the 12-month anniversary of execution of the Employment Agreement. Employee shall receive an additional 150,000 shares of Common Stock upon the 24-month anniversary of the Employment Agreement. The Employee may receive severance of the greater of six months’ salary or \$50,000 upon termination of the Employment Agreement and shall be entitled to retain all equity ownership earned as of the date of termination.

Business Overview

As a result of the Merger, the company has expanded its platform to encapsulate a broader sports technology and media focus. Branded as XSport Global, Inc, we are a leading youth and collegiate sports technology and media holding company focused on developing disruptive sports-centric technologies and related disruptive products around the world, where sports industries and players are highly regarded. Our business plan has shifted to include all aspects of athletic performance. We seek to help athletes achieve their full potential through development of cognitive training, careers, communication, genetics, recruiting and more. We are actively engaged in product development for many of these competencies, and expect to evaluate the viability of each offering through the exploration of technology development in-house, or sourcing high-growth/under-valued strategic partnerships and/or acquisitions.

Our flagship company, HeadTrainer, Inc., was established to create, develop, promote, market, produce, and distribute online/mobile application cognitive training tools initially intended for the youth, millennial, and adult sports markets. The mobile platform was designed and developed in careful coordination with a team of professionals from the fields of science and medicine, and world-class athletes from a variety of sports. We are focused on developing a unique, industry-leading iOS and Android cognitive training mobile device application platform called HeadTrainer that we believe is differentiated from other players in the cognitive training space with a primary focus on the youth sports markets. We are in evaluation of our core system architecture and expect to be in development of ten to fifteen (10-15) mobile games/exercises in second quarter. The development and testing will be ongoing, and we are expecting to launch the product in beta form in the second half of calendar 2018.

We have developed a product that consists of i) a mobile device application (“App”) that provides a suite of cognitive training exercises available in iOS and Android versions and ii) integrates into a server-based platform that can customize user experiences, track progress, provide education, and offer an administrative console for the user (the “Product”). We are continuing to develop our Product platform with the goal that it be flexible and interesting to a wide audience. The cognitive training tools are intended to serve primarily the youth sports market (ages 8-18) and the high sports interest market (ages 13-29) along with support for an adult category. The exercises incorporate sports themes and were designed with graphics that appeal to the target demographic.

We are in development of the Product, designed to help athletes improve their cognitive abilities, with the creation and delivery of between 10 and 15 games/exercises, each of which is targeted to improve cognitive skills in one or more of five key cognitive areas. We call these five areas Cognitive Skill Attributes (each an “CSA”) and have defined them specifically as follows:

- Processing Speed
- Decision Making
- Focus/Concentration
- Visual-Spatial Awareness
- Memory

We expect to continuously develop new games/exercises to build a library of unique experiences, and we believe that this is essential to establish an increasing set of games/exercises for users to master.

The overall goal of the Product is to improve cognitive reasoning, response times, associated motor skills and reaction time. The Product will attempt to provide varying and escalating levels of difficulty to continuously challenge the users who will have a personalized training sequence presented to them based on their individual progress. A user’s progress will be reflected in specific game/exercise scores, as well as through aggregate scores for each CSA and a computed overall score (the “HeadTrainer Index”). Another anticipated feature of the Product is the ability to participate in combines called “HeadTrainer Contests,” which will allow users to compete against others throughout the world. There will also be an embedded feature in the Product that will allow the accumulation of points that may be able to be exchanged for prizes, such as logo t-shirts, caps, and potentially autographed footballs or basketballs. This feature will mostly likely need to be delivered through a web system or third party outside of the App itself. While we believe this rewards feature is unique in the industry, more development work is required before this feature can be implemented.

Current cognitive training systems are generally designed for non-athletic training (i.e. where a subject is in a calm, quiet environment). Along with traditional sight and touch cognitive training modules, the Company, by contrast, has attempted to replicate in its Product a true sporting event environment, by incorporating, for instance, outside and background noise in future releases. By utilizing headphones with environment-specific, programmed noise, audio tracks, and prompts, the Company has created its Product with integrated audio track, sight, touch, and sound training systems that allows the athlete to train in an environment that we believe is similar to many of the stimuli that would be present in actual competition. No material revenue has been earned to date.

The Shift Now division, acquired on August 28, 2018, is a full service digital marketing agency focused on branding, creative, video, copy writing, and digital ad placement across various platforms. The division is responsible for designing and implementing digital strategies for clients in varying industries with an emphasis on automotive.

Results of Operations

Comparison of the Three Months Ended June 30, 2018 to the Three Months Ended June 30, 2017

A comparison of the Company's operating results for the three months ended June 30, 2018 and June 30, 2017, respectively, is as follows:

Revenues

Our application was not active and thus there were no revenues for the three months ended June 30, 2018 or 2017.

Cost of Sales and Gross Margins

There were no revenues for the three months ended June 30, 2018 or 2017, thus the Company had no costs of sales or gross margins.

Operating Expenses

Operating expenses decreased by \$56,749, or 14%, for the three months ended June 30, 2018, as compared to the three months ended June 30, 2017, primarily as a result of a \$64,895 decrease in research and development expenses primarily from a reduction in cash flow.

Comparison of the Nine Months Ended June 30, 2018 to the Nine Months Ended June 30, 2017

A comparison of the Company's operating results for the nine months ended June 30, 2018 and June 30, 2017, respectively, is as follows:

Revenues

Our application was not active and thus there were no revenues for the nine months ended June 30, 2018 or 2017.

Cost of Sales and Gross Margins

There were no revenues for the nine months ended June 30, 2018 or 2017, thus the Company had no costs of sales or gross margins.

Operating Expenses

Operating expenses decreased by \$622,361, or 42%, for the nine months ended June 30, 2018, as compared to the nine months ended June 30, 2017, as a result of a \$677,062 decrease in general and administrative expenses primarily from a reduction in stock-based compensation to related parties and a reduction in research and development spending this period. This decrease was partially offset by the gain on debt and payable extinguishment of \$164,267 in the nine month ended June 30, 2017 period.

Liquidity, Financial Condition and Capital Resources

As of June 30, 2018, we had cash on hand of \$69,334 and a working capital deficiency of \$2,353,850, as compared to cash on hand of \$186,881 and a working capital deficiency of \$2,075,562 as of September 30, 2017. The increase in working capital deficiency is mainly due to our net loss of \$871,711 during the nine months ended June 30, 2018, partially offset by proceeds received from the sale of common stock of \$320,034.

Common Stock Financing

On October 2, 2017, the Company received proceeds of \$60,000 from an accredited investor for the sale of 881,057 shares of the Company's common stock at a price of \$0.068 per share.

On January 10, 2018, the Company received aggregate proceeds of \$60,000 from two investors for the sale of a total of 200,000 shares of the Company's common stock at a price of \$0.30 per share.

In April and May 2018, the Company received aggregate proceeds of \$50,030 from two investors for the sale of a total of 333,334 shares of the Company's common stock at a price of \$0.15 per share.

In June 2018, the Company received aggregate proceeds of \$150,004 from two investors for the sale of a total of 2,000,053 shares of the Company's common stock at a price of \$0.075 per share.

Going Concern

The Company has accumulated losses from inception through the period ended June 30, 2018 of approximately \$10 million, as well as negative cash flows from operating activities. Presently, the Company does not have sufficient cash resources to meet its debt obligations, fund operations and planned research and development in the twelve months from the issuance of this Prospectus. These factors raise substantial doubt about the Company's ability to continue as a going concern. Management expects that the proceeds from this offering will be sufficient to sustain the Company's business plan over the next twelve months, although there is no assurance that management can provide that we may need to raise additional funds prior to that. The consolidated financial statements included as part of this Prospectus do not include any adjustments that may be necessary should the Company be unable to continue as a going concern. The Company's continuation as a going concern is dependent on its ability to obtain additional financing as may be required and ultimately to attain profitability. If the Company raises additional funds through the issuance of equity, the percentage ownership of current shareholders could be reduced, and such securities might have rights, preferences or privileges senior to the rights, preferences and privileges of the Company's common stock. Additional financing may not be available upon acceptable terms, or at all. If adequate funds are not available or are not available on acceptable terms, the Company may not be able to take advantage of prospective business endeavors or opportunities, which could significantly and materially restrict its future plans for developing its business and achieving commercial revenues. If the Company is unable to obtain the necessary capital, the Company may have to cease operations.

Current liabilities	2,446,079	2,269,438
Working capital deficiency	\$ (2,353,850)	\$ (2,075,562)

The decrease in current assets is mainly due to a decrease in cash of \$117,547 as a result of cash used in operations of \$395,672, partially offset by proceeds from the sale of common stock of \$320,034 during the nine months ended June 30, 2018. The increase in current liabilities is primarily due to an increase in accounts payable, accrued liabilities, and accrued compensation to related parties during the nine months ended June 30, 2018.

Cash Flows

	Nine Months Ended June 30,	
	2018	2017
Net cash used in operating activities	\$ (395,672)	\$ (222,939)
Net cash used in investing activities	-	-
Net cash provided by financing activities	278,125	115,000
Decrease in cash	\$ (117,547)	\$ (107,939)

Operating Activities

Net used in operating activities was \$395,672 for the nine months ended June 30, 2018, primarily due to the net loss of \$871,711. This was partially offset by an increase in accounts payable and accrued liabilities, and accrued compensation to related parties.

Net cash used by operating activities was \$222,939 for the nine months ended June 30, 2017, primarily due to a net loss of \$1,491,836. This was partially offset by stock-based compensation to related parties and an increase in accounts payable and accrued liabilities, and accrued compensation to related parties.

Investing Activities

The Company used no cash for investing activities during the nine months ended June 30, 2018 or 2017.

Financing Activities

For the nine months ended June 30, 2018, net cash provided by financing activities was \$278,125 which was a result of \$320,034 received from sale of common stock. This was partially offset by payments of 41,909 on convertible debt to related parties.

For the nine months ended June 30, 2017, net cash provided by financing activities was \$115,000 from the sale of common stock.

Future Financing

In addition to this offering, we expect in the future that we will require additional funds to implement our growth strategy for our business. In addition, while we historically have received capital from various private placements of equity and convertible debt that have enabled us to fund our operations, these funds have been largely utilized, and additional funds are needed for other corporate operational and working capital purposes. However, not including funds needed to fund the growth of the Company or to pay down existing debt and trade payables, we anticipate that we will need the funds from this offering to cover all of our operational expenses through the next twelve months. Beyond that, there can be no assurance that additional financing will be available to us when needed or, if available, that such financing can be obtained on commercially reasonable terms. If we are not able to obtain the additional necessary financing on a timely basis, or if we are unable to generate significant revenues from operations, we will not be able to meet our other obligations as they become due, and we will be forced to scale down or perhaps even cease our operations.

Off-Balance Sheet Arrangements

We have no off-balance sheet arrangements that have or are reasonably likely to have a current or future effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources that is material to stockholders.

Effects of Inflation

We do not believe that inflation has had a material impact on our business, revenues or operating results during the periods presented.

Critical Accounting Policies and Estimates

Basis of Accounting

Our consolidated financial statements are prepared in accordance with accounting principles generally accepted in the United States (“GAAP”). We have a September 30 year-end.

Basis of Consolidation

The financial statements included herein include the accounts of XSport Global, Inc. and its wholly-owned subsidiary, HeadTrainer, as of and for the nine months ended June 30, 2018 and 2017. All significant intercompany transactions have been eliminated in consolidation.

Use of Estimates

The preparation of unaudited condensed consolidated financial statements in accordance with United States generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the unaudited condensed consolidated financial statements and the reported amounts of revenue and expenses in the reporting period. The Company regularly evaluates estimates and assumptions related to useful life and recoverability of long-lived assets, valuation of shares for services and assets, deferred income tax asset valuations and loss contingencies. The Company bases its estimates and assumptions on current facts, historical experience and various other factors that it believes to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities and the accrual of costs and expenses that are not readily apparent from other sources. The actual results experienced by the Company may differ materially and adversely from the Company’s estimates. To the extent there are material differences between the estimates and the actual results, future results of operations will be affected.

Cash

For purposes of the statement of cash flows, we consider all highly liquid instruments with maturity of three months or less at the time of issuance to be cash equivalents. There is no restricted cash or cash equivalents.

Revenue Recognition

We recognize subscription revenue when four basic criteria are met: (1) persuasive evidence exists of an arrangement with the customer reflecting the terms and conditions under which the services will be provided; (2) services have been provided; (3) the fee is fixed or determinable; and (4) collection is reasonably assured. Subscription revenue derived from direct sales to users is recognized on a straight-line basis over the duration of the subscription period. As of June 30, 2018, and September 30, 2017, deferred revenue was \$0. There was no revenue for the nine months ended June 30, 2018 or 2017.

Equipment

Equipment consists of computer equipment, and is recorded at cost, less accumulated depreciation. Equipment is depreciated on a straight-line basis over its estimated life. Computer equipment is depreciated over an estimate life of three years.

Income Taxes

The Company accounts for income taxes using the asset and liability method. Deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for income tax reporting purposes and for operating loss and tax credit carry forwards. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply in the years in which these temporary differences are expected to be recovered or settled. A valuation allowance is established to reduce net deferred tax assets to the amount expected to be realized. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in results of operations in the period that includes the enactment date. We recognize the effect of income tax positions only if those positions are more likely than not of being sustained. Recognized income tax positions are measured at the largest amount that is greater than 50% likely of being recognized. Changes in recognition and measurement are reflected in the period in which the change in judgment occurs. Interest and penalties related to unrecognized tax benefits are included in income tax expense.

Fair Value

Financial instruments consist principally of cash, accounts payable and accrued liabilities, notes payable and convertible notes payable. The recorded values of all financial instruments approximate their current fair values because of their nature and respective relatively short maturity dates or durations. The carrying amounts of these financial instruments approximate fair value due to their short-term nature.

The Company measures and discloses the estimated fair value of financial assets and liabilities using the fair value hierarchy prescribed by US generally accepted accounting principles. The fair value hierarchy has three levels, which are based on reliable available inputs of observable data. The hierarchy requires the use of observable market data when available. The three-level hierarchy is defined as follows:

- Level 1 - Valuation is based upon unadjusted quoted market prices for identical assets or liabilities in accessible active markets.
- Level 2 - Valuation is based upon quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; or valuations based on models where the significant inputs are observable in the market.
- Level 3 - Valuation is based on models where significant inputs are not observable. The unobservable inputs reflect a company's own assumptions about the inputs that market participants would use.

Fair value estimates are made at a specific point in time, based on relevant market information and information about the financial statement. These estimates are subjective in nature and involve uncertainties and matters of significant judgment and therefore cannot be determined with precision. Changes in assumptions could significantly affect the estimates.

Research and development expenses

Research and development expenses are expensed as incurred and are primarily comprised of product development.

Warrants

We have issued warrants in connection with financing arrangements. Warrants that do not qualify to be recorded as permanent equity are recorded as liabilities at their fair value using the Black-Scholes option pricing model. Warrants that do qualify to be recorded as permanent equity are recorded based on the relative fair value of the instrument using the Black-Scholes option-pricing model. The relative fair value of the warrants is recorded in additional paid-in capital and as a debt discount. For warrants issued for services, the relative fair value is recorded in additional paid-in capital and stock-based compensation.

Share-based compensation

We measure the cost of awards of equity instruments based on the grant date fair value of the awards. That cost is recognized on a straight-line basis over the period during which the employee is required to provide service in exchange for the entire award. The fair value of stock options on the date of grant is calculated using the Black-Scholes option pricing model, based on key assumptions such as the fair value of common stock, expected volatility and expected term. Our estimates of these important assumptions are primarily based on third-party valuations, historical data, peer company data and the judgment of management regarding future trends and other factors.

Equity Instruments Issued for Services

Issuances of the Company's common stock for services is measured at the fair value of the consideration received or the fair value of the equity instruments issued, whichever is more reliably measurable. The measurement date for the fair value of the equity instruments issued to employees and board members is determined at the earlier of (i) the date at which a commitment for performance to earn the equity instruments is reached (a "performance commitment" which would include a penalty considered to be of a magnitude that is a sufficiently large disincentive for nonperformance) or (ii) the date at which performance is complete. When it is appropriate for the Company to recognize the cost of a transaction during financial reporting periods prior to the measurement date, for purposes of recognition of costs during those periods, the equity instrument is measured at the then-current fair values at each of those financial reporting dates. Based on the applicable guidance, the Company records the compensation cost but treats forfeitable unvested shares as unissued until the shares vest.

Advertising Costs

The Company expenses the costs of advertising when the advertisements are first aired or displayed. All other advertising and promotional costs are expensed in the period incurred. Total advertising expense for the nine months ended June 30, 2018 and 2017 was \$0 and \$600, respectively. The Company's application was inactive and not sold during the nine months ended June 30, 2018, or fiscal year 2017.

Earnings (Loss) Per Share ("EPS")

Basic EPS is computed by dividing net income (loss) by the weighted average number of shares of common stock outstanding. Diluted EPS includes the effect from potential issuance of common stock, such as stock issuable pursuant to the exercise of stock options and warrants and the assumed conversion of convertible notes.

The following table summarizes the securities that were excluded from the diluted per share calculation because the effect of including these potential shares was antidilutive even though the exercise price could be less than the average market price of the common shares:

	<u>June 30,</u>	
	<u>2018</u>	<u>2017</u>
Convertible notes	4,298,984	389,288
Warrants	1,263,989	197,787
Potentially dilutive securities	<u>5,562,973</u>	<u>587,075</u>

Recent Accounting Pronouncements

On May 10, 2017, the Financial Accounting Standards Board (“FASB”) issued an Accounting Standards Update (“ASU”) 2017-09 “Compensation - Stock Compensation (Topic 718): Scope of Modification Accounting”, which provides guidance to clarify when to account for a change to the terms or conditions of a share-based payment award as a modification. Under the new guidance, modification accounting is required only if the fair value, the vesting conditions, or the classification of the award (as equity or liability) changes as a result of the change in terms or conditions. The guidance is effective prospectively for all companies for annual periods beginning on or after December 15, 2017. Early adoption is permitted. The Company is currently evaluating the impact of adopting this guidance.

In March 2016, the FASB issued ASU 2016-09, Compensation - Stock Compensation (Topic 718): Improvement to Employee Share-Based Payment Accounting. The new standard contains several amendments that will simplify the accounting for employee share-based payment transactions, including the accounting for income taxes, forfeitures, statutory tax withholding requirements, classification of awards as either equity or liabilities, and classification on the statement of cash flows. The changes in the new standard eliminate the accounting for excess tax benefits to be recognized in additional paid-in capital and tax deficiencies recognized either in the income tax provision or in additional paid-in capital. The ASU is effective for annual reporting periods beginning after December 15, 2017, and interim periods within annual reporting periods beginning after December 15, 2018. The Company determined that the adoption of this ASU had no material impact on its financial position or results of operations.

In February 2016, the FASB issued ASU 2016-02, “Leases” (Topic 842). This guidance will be effective for public entities for fiscal years beginning after December 15, 2018 including the interim periods within those fiscal years. Early application is permitted. Under the new provisions, all lessees will report a right-of-use asset and a liability for the obligation to make payments for all leases with the exception of those leases with a term of 12 months or less. All other leases will fall into one of two categories: (i) Financing leases, similar to capital leases, which will require the recognition of an asset and liability, measured at the present value of the lease payments and (ii) Operating leases which will require the recognition of an asset and liability measured at the present value of the lease payments. Lessor accounting remains substantially unchanged with the exception that no leases entered into after the effective date will be classified as leveraged leases. For sale leaseback transactions, the sale will only be recognized if the criteria in the new revenue recognition standard are met. The Company is currently evaluating the impact of adopting this guidance.

In August 2015, the FASB issued ASU 2015-14, “Revenue From Contracts With Customers (Topic 606)”. The amendments in this ASU defer the effective date of ASU 2014-09 “Revenue From Contracts With Customers (Topic 606)”. Public business entities should apply the guidance in ASU 2014-09 to annual reporting periods beginning after December 15, 2017, including interim reporting periods within that reporting period. Earlier application is permitted only as of annual reporting periods beginning after December 15, 2016, including interim reporting periods within that reporting period. The Company determined that the adoption of this ASU will have no material impact on its financial position or results of operations when adopted.

Comparison of the Fiscal Years Ended September 30, 2017 and September 30, 2016

A comparison of the Company's operating results for the fiscal years ended September 30, 2017 and September 30, 2016 are as follows:

	<u>For the Year Ended September 30, 2017</u>	<u>For the Year Ended September 30, 2016</u>
Revenue	\$ -	\$ 6,061
Operating Expenses	1,721,666	3,913,010
Operating Loss	(1,721,666)	(3,906,949)
Other Expense	(34,201)	(92,053)
Net loss	<u>\$ (1,755,867)</u>	<u>\$ (3,999,002)</u>

Revenues

Revenues decreased by \$6,061 from the prior year as a result of our application being inactive during 2017 while we focused on product development.

Operating Loss

Loss from operations for the years ended September 30, 2017 and 2016 was \$1,721,666 and \$3,906,949, respectively. The decrease in operating loss is primarily due to the gain on debt and payable extinguishment of \$139,267 for the year ended September 30, 2017 compared to a loss on debt \$1,428,097 loss on debt and payable extinguishment of for the year ended September 30, 2016. Additionally, general and administrative expenses decreased \$680,636, primarily as a result of a decrease in stock-based compensation, payroll and consulting fees.

Liquidity, Financial Condition and Capital Resources

As of September 30, 2017, we had cash on hand of \$186,881 and a working capital deficiency of \$2,075,562, as compared to cash on hand of \$123,896 and a working capital deficiency of \$1,880,985 as of September 30, 2016. The decrease in working capital deficiency is mainly due to an increase in accounts payable and accrued expenses, as well as new convertible debt acquired during the year ended September 30, 2017.

Notes Payable – Related Parties

As of September 30, 2017, the Company had notes payable to related parties totaling \$112,959, including accrued interest of \$10,959. The notes are unsecured and bear interest at 8% and are in default as of September 30, 2017.

Convertible Notes Payable

As of September 30, 2017, The Company had convertible notes payable to related parties totaling \$130,446, including accrued interest of \$25,446. The convertible notes bear interest at 10% and are convertible in shares of the Company's common stock at prices ranging from \$0.0227 to \$0.49 per share.

[Table of Contents](#)

As of September 30, 2017, The Company had convertible notes payable to third-parties totaling \$377,647, including accrued interest of \$27,647. The convertible notes bear interest at rates ranging from 0% to 10% and are convertible in shares of the Company's common stock at prices ranging from \$0.0205 to \$0.49 per share.

During the year ended September 30, 2016, the company received \$230,000 from accredited investors for an aggregate of 776,667 post-split shares of common stock at price of \$0.10 per share.

In January of 2017, the company received \$25,000 from an accredited investor for 84,266 post-split shares of the Company's common stock at a price of \$0.10 per share. In February of 2017, the Company received \$50,000 from an accredited investor for 168,532 post-split shares of the Company's common stock at a price of \$0.10 per share.

In May of 2017, the Company received an aggregate of \$40,000 from two accredited investors for 134,826 post-split shares of the Company's common stock at a price of \$0.10 per share.

In August and September of 2017, the Company received an aggregate of \$235,035 from accredited investors for 3,511,323 post-split shares of the Company's common stock at a price of \$0.0227 per share.

Share Issuances to Settle Debt

During the year ended September 30, 2016, related party notes payable totaling an aggregate of \$123,000 were converted to the Company's common stock by the note holders and a total of \$131,500 of related party notes were settled as part of a settlement agreement.

Convertible notes payable with an aggregate principal balance of \$850,000 and accrued interest of \$59,205, were converted into 1,416,017 post-split shares of the Company's common stock during the year ended September 30, 2016.

Convertible notes payable to related parties with an aggregate principal balance of \$450,000 and accrued interest of \$32,058, were converted into 606,715 post-split shares of the Company's common stock during the year ended September 30, 2016.

On November 7, 2016, the two consultants agreed to convert a total of \$300,000 of consulting fees earned in 2015 and 2016 into 1,011,192 post-split shares of the Company's common stock at a price of \$0.10 per share.

Going Concern

The audited consolidated financial statements contained in this prospectus have been prepared assuming that the Company will continue as a going concern. The Company has accumulated losses from inception through the period ended September 30, 2017 of approximately \$9 million, as well as negative cash flows from operating activities. Presently, the Company does not have sufficient cash resources to meet its plans in the twelve months following the issuance of these financial statements. These factors raise substantial doubt about the Company's ability to continue as a going concern. Management is in the process of evaluating various financing alternatives in order to finance the continued development of the Product, as well as other general and administrative expenses. These alternatives include raising funds through public or private equity markets and either through institutional or retail investors. Although there is no assurance that the Company will be successful with its fund-raising initiatives, management believes that the Company will be able to secure the necessary financing as a result of ongoing financing discussions with third party investors and existing shareholders.

[Table of Contents](#)

The consolidated financial statements do not include any adjustments that may be necessary should the Company be unable to continue as a going concern. The Company's continuation as a going concern is dependent on its ability to obtain additional financing as may be required and ultimately to attain profitability. If the Company raises additional funds through the issuance of equity, the percentage ownership of current shareholders could be reduced, and such securities might have rights, preferences or privileges senior to the rights, preferences and privileges of the Company's common stock. Additional financing may not be available upon acceptable terms, or at all. If adequate funds are not available or are not available on acceptable terms, the Company may not be able to take advantage of prospective business endeavors or opportunities, which could significantly and materially restrict its future plans for developing its business and achieving commercial revenues. If the Company is unable to obtain the necessary capital, the Company may have to cease operations.

Working Capital Deficiency

	September 30, 2017	September 30, 2016
Current assets	\$ 193,876	\$ 123,896
Current liabilities	2,269,438	2,004,881
Working capital deficiency	<u>\$ (2,075,562)</u>	<u>\$ (1,880,985)</u>

The increase in current assets is mainly due to an increase in cash of \$62,985 for the year ended September 30, 2017. The increase in current liabilities is primarily due to an increase in accounts payable and accrued expenses, as well as the issuance of new convertible debt during the year ended September 30, 2017.

	Year Ended September 30,	
	2017	2016
Net cash used in operating activities	\$ (342,050)	\$ (162,562)
Net cash provided by financing activities	405,035	286,007
Increase in cash	<u>\$ 62,985</u>	<u>\$ 123,445</u>

Operating Activities

Net cash used in operating activities was \$342,050 for the year ended September 30, 2017, primarily due to the net loss of \$1,755,867, offset by stock-based compensation issued for services and an increase in accounts payable and accrued liabilities and accrued compensation to related parties.

Net cash used by operating activities was \$162,562 for the fiscal year ended September 30, 2016, primarily due to a net loss of \$3,999,002 offset by stock-based compensation issued for services, an increase in accounts payable and accrued liabilities and accrued compensation to related parties, and the loss on settlement of debt and accounts payable of \$1,428,097.

Financing Activities

For the fiscal year ended September 30, 2017, net cash provided by financing activities was \$405,035, of which \$350,035 was received from the sale of common stock, \$55,000 was received from the issuance of convertible debt.

For the fiscal year ended September 30, 2016, net cash provided by financing activities was \$286,007, of which \$230,000 was received from the sale of common stock and \$56,007 received from the issuance of notes payable to related parties.

Future Financing

We will require additional funds to implement our growth strategy for our business. In addition, while we have received capital from various private placements of equity and convertible debt that have enabled us to fund our operations, these funds have been largely utilized, and additional funds are needed for other corporate operational and working capital purposes. However, not including funds needed to fund the growth of the Company or to pay down existing debt and trade payables, we anticipate that we will need to raise additional capital to cover all of our operational expenses over the next 12 months from the issuance of this report. These funds may be raised through equity financing, debt financing, or other sources, which may result in further dilution in the equity ownership of our shares. There can be no assurance that additional financing will be available to us when needed or, if available, that such financing can be obtained on commercially reasonable terms. If we are not able to obtain the additional necessary financing on a timely basis, or if we are unable to generate significant revenues from operations, we will not be able to meet our other obligations as they become due, and we will be forced to scale down or perhaps even cease our operations.

Off-Balance Sheet Arrangements

We have no off-balance sheet arrangements that have or are reasonably likely to have a current or future effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources that is material to stockholders.

Effects of Inflation

We do not believe that inflation has had a material impact on our business, revenues or operating results during the periods presented.

Equity Compensation Plan Information and Issuances

Our current policy is that all full time key employees are considered annually for the possible grant of stock options, depending upon employee performance. The criteria for the awards are experience, uniqueness of contribution to our business and the level of performance shown during the year. Stock options are intended to generate greater loyalty and help make each employee aware of the importance of their business success of the Company. We currently have no outstanding equity compensation plan in place for the Company. All options previously granted were out of plan options.

Item 14. Indemnification of Directors and Officers

Our directors and officers are indemnified by our articles of incorporation and bylaws to the fullest extent legally permissible under the laws of Wyoming against all expenses, liability and loss, reasonably incurred by them in connection with the defense of any action, suit or proceeding in which they are a party by reason of being or having been directors or officers of the Company. Unless our Board determines by a majority vote of a quorum of disinterested directors that, based upon the facts known, such person acted in bad faith and in a manner that such person did not believe to be in or not opposed to our best interest (or, with respect to any criminal proceeding, that such person believed or had reasonable cause to believe his conduct was unlawful), costs, charges and expenses (including attorneys' fees) incurred by such person in defending a civil or criminal proceeding shall be paid by the Company in advance upon receipt of an undertaking to repay all amounts advanced if it is ultimately determined that the person is not entitled to be indemnified by the Company as authorized by the bylaws, and upon satisfaction of other conditions required by current or future legislation. Insofar as indemnification for liabilities arising under the Securities Act of 1933, as amended, may be permitted to such directors, officers and controlling persons pursuant to the foregoing provisions, or otherwise, we have been advised that in the opinion of the Securities and Exchange Commission such indemnification is against public policy as expressed in the Securities Act and is, therefore, unenforceable.

In the event that a claim for indemnification against such liabilities, other than the payment by us of expenses incurred or paid by such director, officer or controlling person in the successful defense of any action, suit or proceeding, is asserted by such director, officer or controlling person in connection with the securities being registered, we will, unless in the opinion of counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the Securities Act and will be governed by the final adjudication of such issue.

Item 15. Recent Sales of Unregistered Securities

On August 28, 2018, the Company entered into a stock purchase agreement (the "Agreement") whereby the Company agreed to acquire all of the outstanding capital stock (the "Shares") of Shift Now, Inc., a North Carolina corporation ("Shift Now"). The purchase price for the Shares was 700,000 shares of our Common Stock and \$30,000 consisting of two promissory notes for \$15,000 each (the "Notes"). The first promissory note for \$15,000 is to be delivered at closing and due within 12 months of the closing. The second promissory note for \$15,000 is to be delivered to the Seller no later than the 12 month anniversary of the closing and due within 12 months after issuance.

On August 29, 2018 the Company entered into an Equity Purchase Agreement (the "Equity Purchase Agreement") with Triton Funds, LP whereby the Company shall have the right to require Triton to purchase up to \$1,000,000 of the Company's Common Stock. Also on August 29, 2018, the Company approved a donation of 400,000 shares of the Company's common stock to Triton Funds LLC.

In April and May 2018, the Company received aggregate proceeds of \$50,030 from two investors for the sale of a total of 333,334 shares of the Company's common stock at a price of \$0.15 per share.

In June 2018, the Company received aggregate proceeds of \$150,004 from two investors for the sale of a total of 2,000,053 shares of the Company's common stock at a price of \$0.075 per share.

In January of 2017, the company received \$25,000 from an accredited investor for 252,798 shares of the Company's common stock at a price of \$0.10 per share. In February of 2017, the Company received \$50,000 from an accredited investor for 505,596 shares of the Company's common stock at a price of \$0.10 per share.

In May of 2017, the Company received an aggregate of \$40,000 from two accredited investors for 404,476 shares of the Company's common stock at a price of \$0.10 per share.

In August and September of 2017, the Company received an aggregate of \$235,035 from accredited investors for 10,353,967 shares of the Company's common stock at a price of \$0.0227 per share and subscriptions for the Company's Series A Convertible Debentures in the aggregate principal amount of \$200,000.

The Company relied on the exemptions from registration under Section 4(2) of the Securities Act of 1933, as amended, and Rule 506 promulgated thereunder. The Purchase Agreements and the Agreement contain representations to support the Company's reasonable belief that the investors had access to information concerning the Company's operations and financial condition, the investors acquired the securities for their own account and not with a view to the distribution thereof in the absence of an effective registration statement or an applicable exemption from registration, and that the investors are sophisticated within the meaning of Section 4(2) of the Securities Act and are "accredited investors" (as defined by Rule 501 under the Securities Act). In addition, the sale of securities did not involve a public offering; the Company made no solicitation in connection with the sale other than communications with the investors; the Company obtained representations from the investors regarding their investment intent, experience and sophistication; and the investors either received or had access to adequate information about the Company in order to make an informed investment decision.

Item 16. Exhibits

The exhibits listed in the index below are filed as part of this report.

Item 17. Undertakings

1. The undersigned registrant hereby undertakes to file, during any period in which offers or sales are being made, a post-effective amendment to this registration statement:

(i) To include any prospectus required by Section 10(a)(3) of the Securities Act of 1933.

(ii) To reflect in the prospectus any facts or events arising after the effective date of the registration statement (or the most recent post-effective amendment thereof) which, individually or in the aggregate, represent a fundamental change in the information set forth in the registration statement. Notwithstanding the foregoing, any increase or decrease in volume of securities offered (if the total dollar value of securities offered would not exceed that which was registered) and any deviation from the low or high end of the estimated maximum offering range may be reflected in the form of prospectus filed with the Commission pursuant to Rule 424(b) if, in the aggregate, the changes in volume and price represent no more than 20 percent change in the maximum aggregate offering price set forth in the "Calculation of Registration Fee" table in the effective registration statement.

(iii) To include any material information with respect to the plan of distribution not previously disclosed in the registration statement or any material change to such information in the registration statement.

Provided, however, that paragraphs (B)(1)(i) and (B)(1)(ii) of this section do not apply if the registration statement is on Form S-3, Form S-8 or Form F-3, and the information required to be included in a post-effective amendment by those paragraphs is contained in periodic reports filed with or furnished to the Commission by the Registrant pursuant to Section 13 or Section 15(d) of the Exchange Act that are incorporated by reference in the registration statement.

2. The undersigned registrant hereby undertakes that, for the purpose of determining any liability under the Securities Act of 1933, as amended, each such post-effective amendment shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.

3. The undersigned registrant hereby undertakes to remove from registration by means of a post-effective amendment any of the securities being registered that remain unsold at the termination of the offering.

4. The undersigned registrant hereby undertakes that, for purposes of determining any liability under the Securities Act, each filing of the registrant's annual report pursuant to Section 13(a) or Section 15(d) of the Exchange Act (and, where applicable, each filing of an employee benefit plan's annual report pursuant to Section 15(d) of the Exchange Act) that is incorporated by reference in the registration statement shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.

5. The undersigned registrant hereby undertakes that, for the purposes of determining liability to any purchaser:

(i) If the registrant is relying on Rule 430B:

(A) For purposes of determining liability under the Securities Act of 1933, each prospectus filed by the registrant pursuant to Rule 424(b)(3) shall be deemed to be part of the registration statement as of the date the filed prospectus was deemed part of and included in the registration statement; and

(B) Each prospectus required to be filed pursuant to Rule 424(b)(2), (b)(5), or (b)(7) as part of a registration statement in reliance on Rule 430B relating to an offering made pursuant to Rule 415(a)(1)(i), (vii), or (x) for the purpose of providing the information required by section 10(a) of the Securities Act of 1933 shall be deemed to be part of and included in the registration statement as of the earlier of the date such form of prospectus is first used after effectiveness or the date of the first contract of sale of securities in the offering described in the prospectus. As provided in Rule 430B, for liability purposes of the issuer and any person that is at that date an underwriter, such date shall be deemed to be a new effective date of the registration statement relating to the securities in the registration statement to which that prospectus relates, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof. Provided, however, that no statement made in a registration statement or prospectus that is part of the registration statement or made in a document incorporated or deemed incorporated by reference into the registration statement or prospectus that is part of the registration statement will, as to a purchaser with a time of contract of sale prior to such effective date, supersede or modify any statement that was made in the registration statement or prospectus that was part of the registration statement or made in any such document immediately prior to such effective date; or

(ii) If the registrant is subject to Rule 430C, each prospectus filed pursuant to Rule 424(b) as part of a registration statement relating to an offering, other than registration statements relying on Rule 430B or other than prospectuses filed in reliance on Rule 430A, shall be deemed to be part of and included in the registration statement as of the date it is first used after effectiveness. Provided, however, that no statement made in a registration statement or prospectus that is part of the registration statement or made in a document incorporated or deemed incorporated by reference into the registration statement or prospectus that is part of the registration statement will, as to a purchaser with a time of contract of sale prior to such first use, supersede or modify any statement that was made in the registration statement or prospectus that was part of the registration statement or made in any such document immediately prior to such date of first use.

6. Insofar as indemnification for liabilities arising under the Securities Act of 1933, as amended, may be permitted to directors, officers and controlling persons of the undersigned registrant according to the foregoing provisions, or otherwise, the undersigned registrant has been advised that in the opinion of the Securities and Exchange Commission such indemnification is against public policy as expressed in the Act and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment by the Registrant of expenses incurred or paid by a director, officer or controlling person of the registrant in the successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered, the registrant will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the Securities Act of 1933, as amended, and will be governed by the final adjudication of such issue.

SIGNATURES

In accordance with the requirements of the Securities Act of 1933, as amended, the registrant has duly caused this Registration Statement on Form S-1 to be signed on its behalf by the undersigned, on October 24, 2018.

XSPORT GLOBAL, INC. AND SUBSIDIARY
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
FOR THE THREE AND NINE MONTHS ENDED JUNE 30, 2018
(Unaudited)

NOTE 1 - NATURE OF OPERATIONS AND BASIS OF PRESENTATION

XSport Global, Inc. and Subsidiary (the “Company,” “XSport,” or “We”), formerly known as TeleHealthCare, Inc. (“TeleHealthCare”) and HeadTrainer, Inc. (“HeadTrainer”), was incorporated under the laws of the State of Wyoming on December 10, 2012. Prior to the reverse merger described below, TeleHealthCare developed platforms in the telehealth industry.

On September 11, 2017, TeleHealthCare executed an Agreement and Plan of Merger (the “Merger Agreement”) with HeadTrainer, Inc., a North Carolina corporation, and HT Acquisition Corp., a Wyoming corporation and wholly-owned subsidiary of HeadTrainer, Inc. (the “Acquisition”) whereby the Acquisition was merged with and into the Company (the “Merger”) in consideration for 52,500,000 newly-issued shares of Common Stock of the Company (the “Merger Shares”) (17,325,000 shares post-reverse stock split). As a result of the Merger, HeadTrainer became a wholly-owned subsidiary of TeleHealthCare, and following the consummation of the Merger and giving effect to the retirement of approximately 47,000,000 shares (leaving approximately 24,000,000 shares remaining prior to the Merger or 8,000,000 shares post-reverse stock split), and the sale of approximately 10,000,000 shares (3,333,333 shares post-reverse stock split) at the Merger to accredited investors, the stockholders of HeadTrainer, Inc. became beneficial owners of approximately 61% of our issued and outstanding common stock. Certain assets and liabilities of the original TeleHealthCare were then spun off, with the Company assuming approximately \$195,000 of remaining liabilities and changing the name of the newly merged company to HeadTrainer, Inc.

As a result of the Merger, each XSport shareholder received approximately 2.53 newly issued shares of TeleHealthCare for every 1 common share of HeadTrainer owned. Prior to the consummation of the Merger, our former Board of Directors approved an amendment to our Articles of Incorporation (the “Amendment”) to (i) change our name to HeadTrainer, Inc.; (ii) to increase the number of our authorized shares of capital stock to 510,000,000 shares, of which 500,000,000 shares shall be common stock and 10,000,000 shares shall be blank check preferred stock; and (iii) to provide that the Company may take action without a meeting on the written consent of the holders of a majority of the shares entitled to vote at such meeting.

For accounting purposes, HeadTrainer was deemed to be the accounting acquirer in the transaction and, consequently, the transaction was treated as a recapitalization of the Company. Accordingly, XSport’s assets, liabilities and results of operations became the historical consolidated financial statements of the Company and the Company’s assets, liabilities and results of operations was consolidated with HeadTrainer effective as of the date of the Merger. No step-up in basis or intangible assets or goodwill was recorded in this transaction.

On August 28, 2017, our Board of Directors approved a reverse stock split of our issued and authorized shares of common on the basis of three (3) shares for one (1) new share. Our shareholders approved the reverse split through a special meeting held on November 2, 2017. FINRA effected the reverse stock split in July 2018. Our authorized common stock will remain unchanged with 500,000,000 shares of common stock. No fractional shares will be issued in connection with the reverse stock split. Additionally, the Board of Directors and shareholders approved the authorization of 10,000,0000 shares of blank check preferred stock with a par value of \$0.001 per share. All share or per share information included in these unaudited condensed consolidated financial statements gives effect to the reverse split.

On March 22, 2018, the Board of Directors and Majority Shareholders approved an amendment to our Articles of Incorporation to change our name to XSport Global, Inc.

As a result of the Merger with XSport, our business plan has shifted to mobile applications for athletes of all ages and all skill levels, designed to engage and improve cognitive abilities. We are focused on developing a unique, industry-leading iOS and Android cognitive training mobile device application platform called HeadTrainer that we believe is differentiated from other players in the cognitive training space with a primary focus on the youth sports markets.

XSport Global, Inc.

HeadTrainer was incorporated in the state of North Carolina on May 13, 2014. It subsequently changed its original name of Head Trainer, Inc. to HeadTrainer, Inc, then subsequently to XSport Global, Inc.

HeadTrainer was established to create, develop, promote, market, produce, and distribute online/mobile application cognitive training tools initially intended for the youth, millennial and adult sports markets. The Corporation initially intends to outsource product manufacturing, distribution and the majority of its marketing efforts. The Corporation may work in conjunction with other organizations that provide computer programming, graphic design, and marketing expertise, and/or accomplish these same tasks in-house.

Basis of Presentation

The accompanying unaudited condensed consolidated financial statements of the Company have been prepared in accordance with generally accepted accounting principles (“GAAP”) for interim financial statements, instructions to Form 10-Q, and Regulation S-X. Accordingly, certain information and footnote disclosures normally included in financial statements prepared in accordance with GAAP have been condensed or omitted. These condensed consolidated financial statements should be read in conjunction with the financial statements and notes thereto included in our annual report on Form 10-K for the year ended September 30, 2017. In management's opinion, all adjustments (consisting only of normal recurring adjustments) considered necessary for a fair presentation to make our financial statements not misleading have been included. The results of operations for the interim periods are not necessarily indicative of the results to be expected for the full year, or any other period.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The Company’s unaudited condensed consolidated financial statements are prepared in accordance with accounting principles generally accepted in the United States (“GAAP”). The Company has a September 30 year-end.

Basis of Consolidation

The unaudited condensed consolidated financial statements include the accounts of XSport Global, Inc. and its wholly-owned subsidiary HeadTrainer, as of and for the nine months ended June 30, 2018 and 2017. All significant intercompany transactions have been eliminated in consolidation.

Use of Estimates

The preparation of unaudited condensed consolidated financial statements in accordance with United States generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the unaudited condensed consolidated financial statements and the reported amounts of revenue and expenses in the reporting period. The Company regularly evaluates estimates and assumptions related to useful life and recoverability of long-lived assets, valuation of shares for services and assets, deferred income tax asset valuations and loss contingencies. The Company bases its estimates and assumptions on current facts, historical experience and various other factors that it believes to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities and the accrual of costs and expenses that are not readily apparent from other sources. The actual results experienced by the Company may differ materially and adversely from the Company’s estimates. To the extent there are material differences between the estimates and the actual results, future results of operations will be affected.

Cash

For purposes of the statement of cash flows, the Company considers all highly liquid instruments with maturity of three months or less at the time of issuance to be cash equivalents. There is no restricted cash or cash equivalents.

Revenue Recognition

We recognize subscription revenue when four basic criteria are met: (1) persuasive evidence exists of an arrangement with the customer reflecting the terms and conditions under which the services will be provided; (2) services have been provided; (3) the fee is fixed or determinable; and (4) collection is reasonably assured. Subscription revenue derived from direct sales to users is recognized on a straight-line basis over the duration of the subscription period. As of June 30, 2018, and September 30, 2017, deferred revenue was \$0. There was no revenue for the nine months ended June 30, 2018 or 2017.

Equipment

Equipment consists of computer equipment, and is recorded at cost, less accumulated depreciation. Equipment is depreciated on a straight-line basis over its estimated life. Computer equipment is depreciated over an estimate life of three years.

Income Taxes

The Company accounts for income taxes using the asset and liability method. Deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for income tax reporting purposes and for operating loss and tax credit carry forwards. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply in the years in which these temporary differences are expected to be recovered or settled. A valuation allowance is established to reduce net deferred tax assets to the amount expected to be realized. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in results of operations in the period that includes the enactment date. The Company recognizes the effect of income tax positions only if those positions are more likely than not of being sustained. Recognized income tax positions are measured at the largest amount that is greater than 50% likely of being recognized. Changes in recognition and measurement are reflected in the period in which the change in judgment occurs. Interest and penalties related to unrecognized tax benefits are included in income tax expense.

Fair Value

Financial instruments consist principally of cash, accounts payable and accrued liabilities, notes payable and convertible notes payable. The recorded values of all financial instruments approximate their current fair values because of their nature and respective relatively short maturity dates or durations. The carrying amounts of these financial instruments approximate fair value due to their short-term nature.

The Company measures and discloses the estimated fair value of financial assets and liabilities using the fair value hierarchy prescribed by US generally accepted accounting principles. The fair value hierarchy has three levels, which are based on reliable available inputs of observable data. The hierarchy requires the use of observable market data when available. The three-level hierarchy is defined as follows:

- Level 1 - Valuation is based upon unadjusted quoted market prices for identical assets or liabilities in accessible active markets.
- Level 2 - Valuation is based upon quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; or valuations based on models where the significant inputs are observable in the market.
- Level 3 - Valuation is based on models where significant inputs are not observable. The unobservable inputs reflect a company's own assumptions about the inputs that market participants would use.

[Table of Contents](#)

Fair value estimates are made at a specific point in time, based on relevant market information and information about the financial statement. These estimates are subjective in nature and involve uncertainties and matters of significant judgment and therefore cannot be determined with precision. Changes in assumptions could significantly affect the estimates.

Research and development expenses

Research and development expenses are expensed as incurred and are primarily comprised of product development.

Warrants

The Company has issued warrants in connection with financing arrangements. Warrants that do not qualify to be recorded as permanent equity are recorded as liabilities at their fair value using the Black-Scholes option pricing model. Warrants that do qualify to be recorded as permanent equity are recorded based on the relative fair value of the instrument using the Black-Scholes option-pricing model. The relative fair value of the warrants is recorded in additional paid-in capital and as a debt discount. For warrants issued for services, the relative fair value is recorded in additional paid-in capital and stock-based compensation.

Share-based compensation

The Company measures the cost of awards of equity instruments based on the grant date fair value of the awards. That cost is recognized on a straight-line basis over the period during which the employee is required to provide service in exchange for the entire award. The fair value of stock options on the date of grant is calculated using the Black-Scholes option pricing model, based on key assumptions such as the fair value of common stock, expected volatility and expected term. The Company's estimates of these important assumptions are primarily based on third-party valuations, historical data, peer company data and the judgment of management regarding future trends and other factors.

Equity Instruments Issued for Services

Issuances of the Company's common stock for services is measured at the fair value of the consideration received or the fair value of the equity instruments issued, whichever is more reliably measurable. The measurement date for the fair value of the equity instruments issued to employees and board members is determined at the earlier of (i) the date at which a commitment for performance to earn the equity instruments is reached (a "performance commitment" which would include a penalty considered to be of a magnitude that is a sufficiently large disincentive for nonperformance) or (ii) the date at which performance is complete. When it is appropriate for the Company to recognize the cost of a transaction during financial reporting periods prior to the measurement date, for purposes of recognition of costs during those periods, the equity instrument is measured at the then-current fair values at each of those financial reporting dates. Based on the applicable guidance, the Company records the compensation cost but treats forfeitable unvested shares as unissued until the shares vest.

Advertising Costs

The Company expenses the costs of advertising when the advertisements are first aired or displayed. All other advertising and promotional costs are expensed in the period incurred. Total advertising expense for the nine months ended June 30, 2018 and 2017 was \$0 and \$600, respectively. The Company's application was inactive and not sold during the nine months ended June 30, 2018, or fiscal year 2017.

Earnings (Loss) Per Share ("EPS")

Basic EPS is computed by dividing net income (loss) by the weighted average number of shares of common stock outstanding. Diluted EPS includes the effect from potential issuance of common stock, such as stock issuable pursuant to the exercise of stock options and warrants and the assumed conversion of convertible notes.

[Table of Contents](#)

The following table summarizes the securities that were excluded from the diluted per share calculation because the effect of including these potential shares was antidilutive even though the exercise price could be less than the average market price of the common shares:

	June 30,	
	2018	2017
Convertible notes	4,298,984	389,288
Warrants	1,263,989	197,787
Potentially dilutive securities	<u>5,562,973</u>	<u>587,075</u>

Recent Accounting Pronouncements

On May 10, 2017, the Financial Accounting Standards Board (“FASB”) issued an Accounting Standards Update (“ASU”) 2017-09 “Compensation—Stock Compensation (Topic 718): Scope of Modification Accounting”, which provides guidance to clarify when to account for a change to the terms or conditions of a share-based payment award as a modification. Under the new guidance, modification accounting is required only if the fair value, the vesting conditions, or the classification of the award (as equity or liability) changes as a result of the change in terms or conditions. The guidance is effective prospectively for all companies for annual periods beginning on or after December 15, 2017. Early adoption is permitted. The Company is currently evaluating the impact of adopting this guidance.

In March 2016, the FASB issued ASU 2016-09, Compensation - Stock Compensation (Topic 718): Improvement to Employee Share-Based Payment Accounting. The new standard contains several amendments that will simplify the accounting for employee share-based payment transactions, including the accounting for income taxes, forfeitures, statutory tax withholding requirements, classification of awards as either equity or liabilities, and classification on the statement of cash flows. The changes in the new standard eliminate the accounting for excess tax benefits to be recognized in additional paid-in capital and tax deficiencies recognized either in the income tax provision or in additional paid-in capital. The ASU is effective for annual reporting periods beginning after December 15, 2017, and interim periods within annual reporting periods beginning after December 15, 2018. The Company determined that the adoption of this ASU had no material impact on its financial position or results of operations.

In February 2016, the FASB issued ASU 2016-02, “Leases” (Topic 842). This guidance will be effective for public entities for fiscal years beginning after December 15, 2018 including the interim periods within those fiscal years. Early application is permitted. Under the new provisions, all lessees will report a right-of-use asset and a liability for the obligation to make payments for all leases with the exception of those leases with a term of 12 months or less. All other leases will fall into one of two categories: (i) Financing leases, similar to capital leases, which will require the recognition of an asset and liability, measured at the present value of the lease payments and (ii) Operating leases which will require the recognition of an asset and liability measured at the present value of the lease payments. Lessor accounting remains substantially unchanged with the exception that no leases entered into after the effective date will be classified as leveraged leases. For sale leaseback transactions, the sale will only be recognized if the criteria in the new revenue recognition standard are met. The Company is currently evaluating the impact of adopting this guidance.

In August 2015, the FASB issued ASU 2015-14, “Revenue From Contracts With Customers (Topic 606)”. The amendments in this ASU defer the effective date of ASU 2014-09 “Revenue From Contracts With Customers (Topic 606)”. Public business entities should apply the guidance in ASU 2014-09 to annual reporting periods beginning after December 15, 2017, including interim reporting periods within that reporting period. Earlier application is permitted only as of annual reporting periods beginning after December 15, 2016, including interim reporting periods within that reporting period. The Company determined that the adoption of this ASU will have no material impact on its financial position or results of operations when adopted.

The Company has implemented all new accounting pronouncements that are in effect and that may impact its unaudited condensed consolidated financial statements and does not believe that there are any other new accounting pronouncements that have been issued that might have a material impact on its financial position or results of operations.

NOTE 3 - LIQUIDITY, UNCERTAINTIES AND GOING CONCERN

The Company is subject to a number of risks similar to those of early stage companies, including dependence on key individuals, the difficulties inherent in the development of a commercial market, the potential need to obtain additional capital necessary to fund the development of its products, and competition from larger companies.

These unaudited condensed consolidated financial statements have been prepared on a going concern basis which assumes the Company will be able to realize its assets and discharge its liabilities in the normal course of business for the foreseeable future. The Company has incurred a loss since inception resulting in an accumulated deficit of approximately \$10 million as of June 30, 2018, and further losses are anticipated in the development of its business raising substantial doubt about the Company's ability to continue as a going concern. The ability to continue as a going concern is dependent upon the Company generating profitable operations in the future and/or obtaining the necessary financing to meet its obligations and repay its liabilities arising from normal business operations when they come due. Management intends to finance operating costs over the next twelve months from the date of the issuance of these unaudited condensed consolidated financial statements with existing cash on hand and loans from directors and/or the private placement of common stock. There is, however, no assurance that the Company will be able to raise any additional capital through any type of offering on terms acceptable to the Company, and as such management believes they do not have sufficient cash for the next 12 months from the issuance of these financial statements.

NOTE 4 –EQUIPMENT

The Company's equipment consists of the following:

	June 30, 2018	September 30, 2017
Computer equipment	\$ 7,351	\$ 7,351
	7,351	7,351
Less: accumulated depreciation	(7,351)	(6,181)
	<u>\$ -</u>	<u>\$ 1,170</u>

Depreciation expense was \$1,170 and \$1,709 for the nine months ended June 30, 2018 and 2017, respectively.

NOTE 5 - RELATED PARTIES

In June 2014, the Company entered into an agreement with HIP, LLC ("HIP"), a company owned by the Company's Chairman. Per the agreement, in exchange for the intellectual property consisting of certain patents and trademarks, the Company is to pay HIP periodic royalty payments equal to 1.75% of the revenue derived from the sale of any product incorporating the intellectual property.

On July 24, 2015, the Company entered into a separation agreement and release of liability (the "Separation Agreement") with the Company's former Chief Executive Officer (the "former CEO") whereby the Company agreed to pay the former CEO a severance payment of \$150,000, plus repay a \$50,000 unsecured promissory note which is included in convertible notes payable – related parties on the accompanying balance sheet, on or before December 31, 2017, or within 10 days of the Company receiving \$700,000 in cash proceeds from the issuance of debt or equity securities. The \$150,000 severance payment is reflected in accrued compensation to related parties as of June 30, 2018 and September 30, 2017. Additionally, the Company agreed to pay the former CEO a royalty of 0.5% of the Company's gross revenue recognize from June 15, 2015 through January 25, 2018 payable on a quarterly basis. The former CEO has initiated legal action against the Company and has received a judgement to collect the unpaid severance payment, promissory note, and royalties as the amounts remain unpaid as of June 30, 2018. The Company has appropriately accrued for this matter and has included in accrued liabilities on the accompanying unaudited condensed consolidated balance sheets.

On February 1, 2015, the Company entered into an Employment Agreement with one of the Company's founder to serve as Chairman of the Board of Directors (the "Former Chairman and current Director and CMO"). The agreement has a term of seven years, renewable in two-year increments upon the approval of the Board of Directors of the Company and provides for an annual salary of \$150,000. Additionally, the agreement includes compensation of .0125% of gross revenue after successful launch of the Company's product, subject to approval by the board of directors. In February and November 2016, the Former Chairman and current Director and CMO and the Company entered into a deferred salary conversion agreement, whereby the Former Chairman and current Director and CMO agreed to convert a total of \$131,000 of unpaid salary into 1,139,480 shares (379,827 post-reverse stock split) of the Company's common stock. In June 2018, the company issued 697,504 common shares to the Former Chairman and current Director and CMO in payment of \$47,500 of unpaid salary. As of June 30, 2018, and September 30, 2017, a total of \$27,750 and \$75,250, remains accrued for this agreement and is included in accrued compensation to related parties on the accompanying balance sheet. In June 2018, the Company granted the Former Chairman and current Director and CMO 241,667 shares for incentive and past services as a director. He currently still serves as a director and CMO.

On September 15, 2017, we entered into an employment agreement with Mr. Maurice Durschlag as our Chief Marketing Officer. Under the terms of the employment agreement, Mr. Durschlag is considered an "At Will" employee and shall receive annual compensation of \$120,000 per year and be immediately vested in the Company's health and benefits package. Mr. Durschlag was also granted 1,000,000 shares of the Company's common stock (333,333 shares post-reverse stock split), with a fair value of \$22,700, that vests as to 41,667 shares on each of October 1, 2017, January 1, 2018, April 1, 2018, July 1, 2018, October 1, 2018, January 1, 2019, April 1, 2019 and July 1, 2019. Mr. Durschlag also may defer up to 50% of his annual salary to purchase an equivalent number of shares in the Company based upon a purchase price of \$0.0227 per share. Mr. Durschlag is also entitled to reimbursement of business expenses and customary provisions for vacation, sick time and holidays. Determinations with regard to bonus or option grants are made by the Board of Directors. As of June 30, 2018, and September 30, 2017, a total of \$55,000 and \$5,000, respectively, remains accrued for this agreement and is included in accrued compensation to related parties on the accompanying balance sheet.

On September 15, 2017, we entered into an amended employment agreement with Mr. Robert Finigan as our Chairman and Chief Executive Officer. Under the terms of the employment agreement, Mr. Finigan is considered an "At Will" employee and shall receive annual compensation of \$150,000 per year and be immediately vested in the Company's health and benefits package. Mr. Finigan was also granted 1,000,000 shares of the Company's common stock (333,333 post-reverse stock split), with a fair value of \$22,700, that vests as to 41,667 shares on each of October 1, 2017, January 1, 2018, April 1, 2018, July 1, 2018, October 1, 2018, January 1, 2019, April 1, 2019 and July 1, 2019. Mr. Finigan also may defer up to 50% of his annual salary to purchase an equivalent number of shares in the Company based upon a purchase price of \$0.0227 per share. Mr. Finigan is also entitled to reimbursement of business expenses and customary provisions for vacation, sick time and holidays. Determinations with regard to bonus or option grants are made by the Board of Directors. As of June 30, 2018, and September 30, 2017, a total of \$24,477 and \$3,655, respectively, remains accrued for this agreement and is included in accrued compensation to related parties on the accompanying balance sheet. In June 2018, the company granted Mr. Finigan 1,263,989 shares and 871,880 shares of common stock for unpaid wages as Chairman and CEO, as well as 241,667 shares for incentives and director services.

On May 27, 2016, the Company entered into an Employment Agreement, with an Amendment dated November 7, 2016, with the Company's CTO, terminating by either party upon 60 day written notice. The agreement calls for a compensation of minimum wage until such time the Company completes a debt or equity offering of at least \$1,000,000, when the CTO shall begin receiving a salary of \$75,000 per year, payable monthly. At such time the Company completes a debt or equity offering of at least \$5,000,000, the CTO shall begin receiving a salary of \$150,000 per year, payable monthly. The agreement allows for the cashless exercise of 1,125,000 stock options of the pre-Merger XSport Global, Inc. common stock at a price of \$0.051 per share. The options become fully vested on May 31, 2017 and must be exercised between May 31, 2017 and May 31, 2022 (see Note 11). These options were cancelled on the Merger date. On May 27, 2017, the Company granted 252,798 shares with a value of \$75,000 in lieu of salary under this agreement. As of June 30, 2018, and September 30, 2017, a total of \$17,697 remains accrued for this agreement and is included in accrued compensation to related parties on the accompanying balance sheet.

As of June 30, 2018, and September 30, 2017, an additional \$52,970 and \$47,364, respectively, was accrued for other employees and employer taxes which is included in accrued compensation to related parties on the accompanying balance sheet.

NOTE 10 – COMMON STOCK

On May 13, 2014, the Company filed its Articles of Incorporation with the State of North Carolina Secretary of State giving it the authority to issue 10,000,000 common shares, with no par value. On February 3, 2016, the majority voting common shareholders approved the amendment of the Company's articles of incorporation in order to increase its authorized common stock from 10,000,000 shares to 25,000,000 shares.

On September 11, 2017, TeleHealthCare executed an Agreement and Plan of Merger (the "Merger Agreement") with HeadTrainer, Inc., a North Carolina corporation, and HT Acquisition Corp., a Wyoming corporation and wholly-owned subsidiary of HeadTrainer, Inc. (the "Acquisition") whereby the Acquisition was merged with and into the Company (the "Merger") in consideration for 52,500,000 newly-issued shares of Common Stock of the Company (the "Merger Shares") (17,325,000 shares post-reverse stock split). As a result of the Merger, HeadTrainer became a wholly-owned subsidiary of TeleHealthCare, and following the consummation of the Merger and giving effect to the retirement of approximately 47,000,000 shares (leaving approximately 24,000,000 shares remaining prior to the Merger or 8,000,000 shares post-reverse stock split), and the sale of approximately 10,000,000 shares (3,333,333 shares post-reverse stock split) at the Merger to accredited investors, the stockholders of HeadTrainer, Inc. became beneficial owners of approximately 61% of our issued and outstanding common stock. Certain assets and liabilities of the original TeleHealthCare were then spun off, including assets and liabilities associated with CarePanda, with the Company assuming approximately \$195,000 of remaining liabilities and changing the name of the newly merged company to HeadTrainer, Inc. All TeleHealthCare stock options or warrants expired by September 30, 2017. Warrants to purchase an aggregate of 1,500,000 shares of common stock remain from HeadTrainer, with a total of 2,625,000 HeadTrainer stock options cancelled (See Note 11).

As a result of the Merger, each HeadTrainer shareholder received approximately 2.53 newly issued shares of TeleHealthCare for every 1 common share of HeadTrainer owned.

Concurrent with Merger, our Board of Directors approved an amendment to our Articles of Incorporation (the "Amendment") to (i) change our name to HeadTrainer, Inc.; (ii) to increase the number of our authorized shares of capital stock to 510,000,000 shares, of which 500,000,000 shares shall be common stock and 10,000,000 shares shall be blank check preferred stock; and (iii) to provide that the Company may take action without a meeting on the written consent of the holders of a majority of the shares entitled to vote at such meeting.

On March 22, 2018, the Board of Directors and Majority Shareholders approved an amendment to our Articles of Incorporation to change our name to XSport Global, Inc.

Transactions during the nine months ended June 30, 2018 (all shares are post-reverse stock split):

On January 10, 2018, the Company received aggregate proceeds of \$60,000 from two investors for the sale of a total of 200,000 shares of the Company's common stock at a price of \$0.30 per share.

In April and May 2018, the Company received aggregate proceeds of \$50,030 from two investors for the sale of a total of 333,334 shares of the Company's common stock at a price of \$0.15 per share.

In June 2018, the Company received aggregate proceeds of \$150,004 from two investors for the sale of a total of 2,000,053 shares of the Company's common stock at a price of \$0.075 per share.

During the nine months ended June 30, 2018, the Company's CEO was granted 333,333 shares of restricted common stock as part of future compensation and vested in 125,000 of those shares at \$0.0681 per share, with a total value of \$8,513 for services pursuant to his employment agreement dated September 15, 2017. These shares have not yet been issued, however, the compensation expense has been recognized. Total unrecognized compensation for these stock grants was approximately \$11,000 as of June 30, 2018.

During the nine months ended June 30, 2018, the Company's Chief Marketing Officer was granted 333,333 shares of restricted common stock as part of future compensation and vested in 125,000 of those shares at \$0.0681 per share, with a total value of \$8,513 for services pursuant to his employment agreement dated September 15, 2017. These shares have not yet been issued, however, the compensation expense has been recognized. Total unrecognized compensation for these stock grants was approximately \$11,000 as of June 30, 2018.

In June 2018, the Company granted the Company's CEO and Chief Marketing Officer an aggregate of 3,316,707 shares of the Company's common stock for services with an aggregate fair value of approximately \$248,000, of which \$106,875 was credited against accrued payroll due.

NOTE 11 - WARRANTS

As of June 30, 2018, the Company had no stock options and outstanding warrants to purchase approximately 1.3 million common shares (post-reverse split). The warrants have terms of 5 to 10 years and have an exercise price of \$0.21. These warrants were issued in April and May of 2016 while XSport Global was a private company.

NOTE 12 – OPERATING LEASE

From May 2014 through July 2016, the Company had a month-to-month office lease for an office space with a monthly base rate of \$870 per month. The Company owes \$1,101 for past due payments under this lease as of June 30, 2018. The Company did not lease office space from August 2016 through July 2017.

The Company entered into a lease agreement for office space in August 2017 for a total monthly rental of \$1,995 and a term of 24 months.

NOTE 13 – COMMITMENTS AND CONTINGENCIES

The Company has endorsement agreements with spokespeople to serve as the Company's brand ambassadors entered in January 2015, providing for cash compensation of \$100,000 annually. The agreements have a ten-year term and provide for one-year extensions by agreement of both parties. The future compensation to brand ambassadors is \$1,400,000, to be earned during the period from January 1, 2018 to December 31, 2024. In addition, the Company will pay royalties to each spokesperson of .5% per month for all gross subscription revenue received by the Company for US subscriptions and 0.25% per month for all gross subscription revenue received by the Company for all non-US subscriptions. Accrued royalties under these agreements were not material as of June 30, 2018 or September 30, 2017. Total accrued expense under these agreements was \$400,000 and \$250,000 respectively, as of June 30, 2018 and September 30, 2017, respectively.

The Company has endorsement agreements with athletes with dates all expiring in 2017, providing for cash compensation of amounts ranging from \$50,000 annually to \$150,000 annually. The future compensation to athletes is \$0 as of June 30, 2018. In addition, the Company agreed to pay royalties of .5% of revenues from subscribers that identify the selected athlete as their favorite athlete. Accrued royalties under these agreements were not material as of December 31 or September 30, 2017. Total accrued expense related to these agreements was \$775,000 as of June 30, 2018 and September 30, 2017, respectively. All agreements were expired as of September 30, 2017.

In addition to the royalties to be paid to brand ambassadors and athletes, the Company is to pay royalties the former CEO and to the Company's Founder as disclosed in Related Party footnote.

The Company is to pay commissions to Apple and Google in consideration for services as the Company's agent and commissionaire for sales of licensed applications to end-users in the amount of 30% of all purchase prices payable to each end-user. The Company's application was inactive during the nine months ended June 30, 2018.

On September 30, 2016, the Company entered into a services agreement with a service provider for a development project payable in installments upon completion of certain milestones. The Company incurred \$44,500 and \$159,000 of expense for the nine months ended June 30, 2018 and 2017, respectively, related to the project which is included in research and development expense.

NOTE 14- SUBSEQUENT EVENTS

Other than the event below, there were no subsequent events that required recognition or disclosure. The Company evaluated subsequent events through the date the financial statements were issued and filed with the Securities and Exchange Commission.

On July 1, 2018, the Company entered into a twelve-month Consulting Agreement with a consultant. The term of the agreement is twelve months with consideration of 200,000 shares of the Company's common stock earned equally in monthly increments over the term of the agreement.

On August 29, 2018 (the "Closing Date"), XSport Global, Inc. (the "Company") entered into an *Equity Purchase Agreement* (the "Equity Purchase Agreement") with Triton Funds, LP, a Delaware limited partnership (the "Investor"), whereby the Company shall have the right to require the Investor to purchase up to \$1,000,000 (the "Commitment Amount") of shares ("Capital Call Shares") the Company's common stock, par value \$0.001 per share ("Common Stock") during the commitment period (the "Commitment Period" commencing on August 28, 2018, and terminating on the earlier of (i) December 31, 2018, (ii) termination of the Equity Purchase Agreement by the Company upon a material breach by the Investor, or (iii) the date that the Investor has purchased Capital Shares equal to the Commitment Amount. Pursuant to the Equity Purchase Agreement, the closing for Capital Call Shares shall occur on the date that is six business days following the date that the Investor receives Capital Call Shares from the Company. The purchase price for the shares to be paid by the Investor at each closing shall be 70% of the volume-weighted average price of the Company's common stock during the 5 trading days prior to a closing date. The obligation of the Investor to purchase Capital Call Shares is subject to several conditions, including, among other thing, (i) that the Company has filed a registration statement with the United States Securities and Exchange Commission registering the Capital Call Shares, and (ii) that the purchase of Capital Call Shares shall not cause the Investor to own more than 4.99% of the outstanding shares of the Company's common stock.

In connection with the Equity Purchase Agreement, on August 29, 2018, the Company also entered into a *Registration Rights Agreement* with the Investor (the "Registration Rights Agreement"), requiring the Company to register, the Capital Call Shares on a registration statement to be filed with the Securities and Exchange Commission within 30 calendar days of the Closing Date. Additionally, on August 29, 2018, the Company approved a donation of 400,000 shares of the Company's common stock to Triton Funds LLC

On August 28, 2018, XSport Global, Inc., a Wyoming corporation (the "Company") entered into a stock purchase agreement (the "Agreement") whereby the Company agreed to acquire all of the outstanding capital stock (the "Shares") of Shift Now, Inc., a North Carolina corporation ("Shift Now"). The purchase price for the Shares was 700,000 shares of our common stock, par value \$0.001 per share (the "Common Stock") and \$30,000 consisting of two promissory notes for \$15,000 each (the "Notes"). The first promissory note for \$15,000 is to be delivered at closing and due within 12 months of the closing. The second promissory note for \$15,000 is to be delivered to the Seller no later than the 12 month anniversary of the closing and due within 12 months after issuance. Additionally, the Company assumed the Shift Now's existing line of credit made in favor of American National Bank in the current amount of \$100,000. Also on August 28, 2018, the Company entered into an employment agreement (the "Employment Agreement") with Kristi Griggs, the former principal shareholder of Shift Now (the "Employee") to serve as Executive Vice President of the Company's Shift Now Division. The Employment Agreement provides that upon consummation of the Merger, Employee shall be entitled to receive a salary of \$100,000 per year plus a bonus of 5% of net revenue of clients managed by Employee or 1.5% of total gross revenues of Shift Now to be paid on the last pay period of the month for the prior month's activity. Additionally, the Company shall issue the Employee 150,000 shares of Common Stock at the 12-month anniversary of execution of the Employment Agreement. Employee shall receive an additional 150,000 shares of Common Stock upon the 24-month anniversary of the Employment Agreement. The Employee may receive severance of the greater of six months' salary or \$50,000 upon termination of the Employment Agreement and shall be entitled to retain all equity ownership earned as of the date of termination.

On September 15, 2018 the Company and Bob Finigan entered into an amended employment agreement whereas he will received \$200,000 per year until expiration on December 31, 2020 and an annual stock grants of 500,000 shares per year. Mr. Finigan is also entitled to an annual bonus to be approved by the Board of Directors paid in the form of company stock in the amount of shares up to 1.5% of the total number of shares issued by the company on the last day of each year.

On September 15, 2018 the Company and Maurice Durschlag entered into an amended employment agreement whereas he will received \$180,000 per year until expiration on December 31, 2020 and an annual stock grants of 500,000 shares per year. Mr. Durschlag is also entitled to an annual bonus to be approved by the Board of Directors paid in the form of company stock in the amount of shares up to 1.0% of the total number of shares issued by the company on the last day of each year.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

Board of Directors and Stockholders
HeadTrainer, Inc.

We have audited the accompanying consolidated balance sheets of HeadTrainer, Inc. and Subsidiary (the “Company” or “HeadTrainer Inc.”) as of September 30, 2017 and 2016, and the related consolidated statements of operations, stockholders’ deficit, and cash flows (“financial statements”) for each of the years in the two-year period ended September 30, 2017. HeadTrainer, Inc.’s management is responsible for these consolidated financial statements. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the company’s internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of HeadTrainer, Inc. as of September 30, 2017 and 2016, and the results of its operations and its cash flows for each of the years in the two-year period ended September 30, 2017, in conformity with accounting principles generally accepted in the United States of America.

The accompanying financial statements have been prepared assuming the Company will continue as a going concern. As more fully described in Note 3, the Company has an accumulated deficit of \$9,336,112 as of September 30, 2017 and has suffered recurring losses from operations and has a net working capital deficiency. These conditions raise substantial doubt about the Company’s ability to continue as a going concern. Management’s plans in regard to these matters are also described in Note 3. The financial statements do not include any adjustments that may result from the outcome of these uncertainties. If the Company is unable to successfully raise additional capital to satisfy the obligations, there could be a material adverse effect on the Company.

**HEADTRAINER, INC. AND SUBSIDIARY
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

NOTE 1 - NATURE OF THE ORGANIZATION AND BUSINESS

HeadTrainer, Inc. and Subsidiary (the “Company” or “We”), formerly known as TeleHealthCare, Inc. (“TeleHealthCare”), was incorporated under the laws of the State of Wyoming on December 10, 2012. Prior to the reverse merger described below, TeleHealthCare developed platforms in the telehealth industry. The first platform the Company developed was called CarePanda. CarePanda was set up as a division of TeleHealthCare. CarePanda is an online software that helps people, family members and caregivers manage, share and control their own, their family’s or their customers’ healthcare information.

On September 11, 2017, TeleHealthCare executed an Agreement and Plan of Merger (the “Merger Agreement”) with HeadTrainer, Inc., a North Carolina corporation, and HT Acquisition Corp., a Wyoming corporation and wholly-owned subsidiary of HeadTrainer, Inc. (the “Acquisition”) whereby the Acquisition will be merged with and into the Company (the “Merger”) in consideration for 17,500,000 newly-issued shares of Common Stock of the Company (the “Merger Shares”). As a result of the Merger, HeadTrainer became a wholly-owned subsidiary of TeleHealthCare, and following the consummation of the Merger and giving effect to the retirement of approximately 15,666,667 shares (leaving approximately 7,957,667 shares remaining prior to the Merger), and the sale of approximately 3,451,322 shares at the Merger to accredited investors, the stockholders of HeadTrainer, Inc. became beneficial owners of approximately 61% of our issued and outstanding common stock. Certain assets and liabilities of the original TeleHealthCare were then spun off, including assets and liabilities associated with CarePanda, with the Company assuming approximately \$194,632 of remaining liabilities and changing the name of the newly merged company to HeadTrainer, Inc.

As a result of the Merger, each HeadTrainer shareholder received approximately 2.53 newly issued shares of TeleHealthCare for every 1 common share of HeadTrainer owned.

Prior to the consummation of the Merger, our former Board of Directors approved an amendment to our Articles of Incorporation (the “Amendment”) to (i) change our name to HeadTrainer, Inc.; (ii) to increase the number of our authorized shares of capital stock to 510,000,000 shares, of which 500,000,000 shares shall be common stock and 10,000,000 shares shall be blank check preferred stock; and (iii) to provide that the Company may take action without a meeting on the written consent of the holders of a majority of the shares entitled to vote at such meeting.

For accounting purposes, HeadTrainer will be deemed to be the accounting acquirer in the transaction and, consequently, the transaction will be treated as a recapitalization of the Company. Accordingly, HeadTrainer’s assets, liabilities and results of operations will become the historical consolidated financial statements of the Company and the Company’s assets, liabilities and results of operations will be consolidated with HeadTrainer effective as of the date of the Merger. No step-up in basis or intangible assets or goodwill will be recorded in this transaction.

As a result of the Merger with HeadTrainer, our business plan has shifted to mobile applications for athletes of all ages and all skill levels, designed to engage and improve cognitive abilities. We are focused on developing a unique, industry-leading iOS and Android cognitive training mobile device application platform called HeadTrainer that we believe is differentiated from other players in the cognitive training space with a primary focus on the youth sports markets.

HeadTrainer, Inc.

HeadTrainer was incorporated in the state of North Carolina on May 13, 2014. It subsequently changed its original name of Head Trainer, Inc. to HeadTrainer, Inc.

HeadTrainer was established to create, develop, promote, market, produce, and distribute online/mobile application cognitive training tools initially intended for the youth, millennial and adult sports markets. The Corporation initially intends to outsource product manufacturing, distribution and the majority of its marketing efforts. The Corporation may work in conjunction with other organizations that provide computer programming, graphic design, and marketing expertise, and/or accomplish these same tasks in-house.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The Company's consolidated financial statements are prepared in accordance with accounting principles generally accepted in the United States ("GAAP"). The Company has a September 30 year-end.

On August 28, 2017, our Board of Directors approved a reverse stock split of our issued and authorized shares of common on the basis of three (3) shares for one (1) new share. Our shareholders approved the reverse split through a special meeting held on November 2, 2017. As of the date of this filing, FINRA has not yet effected the reverse stock split. Our authorized common stock will remain unchanged with 500,000,000 shares of common stock. No fractional shares will be issued in connection with the reverse stock split. Additionally, the Board of Directors and shareholders approved the authorization of 10,000,0000 shares of blank check preferred stock with a par value of \$0.001 per share.

No share or per share information included in these consolidated financial statements gives effect to the reverse split since it has not yet been effected by FINRA as of the date of this filing.

Basis of Consolidation

The consolidated financial statements include the accounts of HeadTrainer, Inc. and its wholly-owned subsidiary HeadTrainer, as of and for the years ended September 30, 2017 and 2016. All significant intercompany transactions have been eliminated in consolidation.

Use of Estimates

The preparation of consolidated financial statements in accordance with United States generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenue and expenses in the reporting period. The Company regularly evaluates estimates and assumptions related to useful life and recoverability of long-lived assets, valuation of shares for services and assets, deferred income tax asset valuations and loss contingencies. The Company bases its estimates and assumptions on current facts, historical experience and various other factors that it believes to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities and the accrual of costs and expenses that are not readily apparent from other sources. The actual results experienced by the Company may differ materially and adversely from the Company's estimates. To the extent there are material differences between the estimates and the actual results, future results of operations will be affected.

Cash

For purposes of the statement of cash flows, the Company considers all highly liquid instruments with maturity of three months or less at the time of issuance to be cash equivalents. There is no restricted cash or cash equivalents.

Revenue Recognition

We recognize subscription revenue when four basic criteria are met: (1) persuasive evidence exists of an arrangement with the customer reflecting the terms and conditions under which the services will be provided; (2) services have been provided; (3) the fee is fixed or determinable; and (4) collection is reasonably assured. Subscription revenue derived from direct sales to users is recognized on a straight-line basis over the duration of the subscription period. As of September 30, 2017 and 2016, deferred revenue was \$0. There was no revenue for the year ended September 30, 2017.

Equipment

Equipment consists of computer equipment, and is recorded at cost, less accumulated depreciation. Equipment is depreciated on a straight-line basis over its estimated life. Computer equipment is depreciated over an estimate life of three years.

Income Taxes

The Company accounts for income taxes using the asset and liability method. Deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for income tax reporting purposes and for operating loss and tax credit carry forwards. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply in the years in which these temporary differences are expected to be recovered or settled. A valuation allowance is established to reduce net deferred tax assets to the amount expected to be realized. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in results of operations in the period that includes the enactment date. The Company recognizes the effect of income tax positions only if those positions are more likely than not of being sustained. Recognized income tax positions are measured at the largest amount that is greater than 50% likely of being recognized. Changes in recognition and measurement are reflected in the period in which the change in judgment occurs. Interest and penalties related to unrecognized tax benefits are included in income tax expense.

Fair value

Financial instruments consist principally of cash, accounts payable and accrued liabilities, notes payable and convertible notes payable. The recorded values of all financial instruments approximate their current fair values because of their nature and respective relatively short maturity dates or durations. The carrying amounts of these financial instruments approximate fair value due to their short-term nature.

The Company measures and discloses the estimated fair value of financial assets and liabilities using the fair value hierarchy prescribed by US generally accepted accounting principles. The fair value hierarchy has three levels, which are based on reliable available inputs of observable data. The hierarchy requires the use of observable market data when available. The three-level hierarchy is defined as follows:

- Level 1 - Valuation is based upon unadjusted quoted market prices for identical assets or liabilities in accessible active markets.
- Level 2 - Valuation is based upon quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; or valuations based on models where the significant inputs are observable in the market.
- Level 3 - Valuation is based on models where significant inputs are not observable. The unobservable inputs reflect a company's own assumptions about the inputs that market participants would use.

Fair value estimates are made at a specific point in time, based on relevant market information and information about the financial statement. These estimates are subjective in nature and involve uncertainties and matters of significant judgment and therefore cannot be determined with precision. Changes in assumptions could significantly affect the estimates.

Research and development expenses

Research and development expenses are expensed as incurred and are primarily comprised of product development.

Warrants

The Company has issued warrants in connection with financing arrangements. Warrants that do not qualify to be recorded as permanent equity are recorded as liabilities at their fair value using the Black-Scholes option pricing model. Warrants that do qualify to be recorded as permanent equity are recorded based on the relative fair value of the instrument using the Black-Scholes option-pricing model. The relative fair value of the warrants is recorded in additional paid-in capital and as a debt discount. For warrants issued for services, the relative fair value is recorded in additional paid-in capital and stock-based compensation.

Share-based compensation

The Company measures the cost of awards of equity instruments based on the grant date fair value of the awards. That cost is recognized on a straight-line basis over the period during which the employee is required to provide service in exchange for the entire award. The fair value of stock options on the date of grant is calculated using the Black-Scholes option pricing model, based on key assumptions such as the fair value of common stock, expected volatility and expected term. The Company's estimates of these important assumptions are primarily based on third-party valuations, historical data, peer company data and the judgment of management regarding future trends and other factors.

Equity Instruments Issued for Services

Issuances of the Company's common stock for services is measured at the fair value of the consideration received or the fair value of the equity instruments issued, whichever is more reliably measurable. The measurement date for the fair value of the equity instruments issued to employees and board members is determined at the earlier of (i) the date at which a commitment for performance to earn the equity instruments is reached (a "performance commitment" which would include a penalty considered to be of a magnitude that is a sufficiently large disincentive for nonperformance) or (ii) the date at which performance is complete. When it is appropriate for the Company to recognize the cost of a transaction during financial reporting periods prior to the measurement date, for purposes of recognition of costs during those periods, the equity instrument is measured at the then-current fair values at each of those financial reporting dates. Based on the applicable guidance, the Company records the compensation cost but treats forfeitable unvested shares as unissued until the shares vest.

Advertising Costs

The Company expenses the costs of advertising when the advertisements are first aired or displayed. All other advertising and promotional costs are expensed in the period incurred. Total advertising expense for the years ended September 30, 2017 and 2016 was \$600 and \$119,992, respectively. The Company's application was inactive and not sold during the year ended September 30, 2017.

Earnings (Loss) Per Share ("EPS")

Basic EPS is computed by dividing net income (loss) by the weighted average number of shares of common stock outstanding. Diluted EPS includes the effect from potential issuance of common stock, such as stock issuable pursuant to the exercise of stock options and warrants and the assumed conversion of convertible notes.

The following table summarizes the securities that were excluded from the diluted per share calculation because the effect of including these potential shares was antidilutive even though the exercise price could be less than the average market price of the common shares:

	Year ended September 30,	
	2017	2016
Convertible notes	4,071,412	155,490
Warrants	1,263,989	1,263,989
Potentially dilutive securities	<u>5,335,401</u>	<u>1,419,479</u>

Recent Accounting Pronouncements

On May 10, 2017, the Financial Accounting Standards Board (“FASB”) issued an Accounting Standards Update (“ASU”) 2017-09 “Compensation—Stock Compensation (Topic 718): Scope of Modification Accounting”, which provides guidance to clarify when to account for a change to the terms or conditions of a share-based payment award as a modification. Under the new guidance, modification accounting is required only if the fair value, the vesting conditions, or the classification of the award (as equity or liability) changes as a result of the change in terms or conditions. The guidance is effective prospectively for all companies for annual periods beginning on or after December 15, 2017. Early adoption is permitted. The Company is currently evaluating the impact of adopting this guidance.

In February 2016, the FASB issued ASU 2016-02, “Leases” (Topic 842). This guidance will be effective for public entities for fiscal years beginning after December 15, 2018 including the interim periods within those fiscal years. Early application is permitted. Under the new provisions, all lessees will report a right-of-use asset and a liability for the obligation to make payments for all leases with the exception of those leases with a term of 12 months or less. All other leases will fall into one of two categories: (i) Financing leases, similar to capital leases, which will require the recognition of an asset and liability, measured at the present value of the lease payments and (ii) Operating leases which will require the recognition of an asset and liability measured at the present value of the lease payments. Lessor accounting remains substantially unchanged with the exception that no leases entered into after the effective date will be classified as leveraged leases. For sale leaseback transactions, the sale will only be recognized if the criteria in the new revenue recognition standard are met. The Company is currently evaluating the impact of adopting this guidance.

In August 2015, the FASB issued ASU 2015-14, “Revenue From Contracts With Customers (Topic 606)”. The amendments in this ASU defer the effective date of ASU 2014-09 “Revenue From Contracts With Customers (Topic 606)”. Public business entities should apply the guidance in ASU 2014-09 to annual reporting periods beginning after December 15, 2017, including interim reporting periods within that reporting period. Earlier application is permitted only as of annual reporting periods beginning after December 15, 2016, including interim reporting periods within that reporting period. The Company is still evaluating the impact of adopting this guidance.

The Company has implemented all new accounting pronouncements that are in effect and that may impact its consolidated financial statements and does not believe that there are any other new accounting pronouncements that have been issued that might have a material impact on its financial position or results of operations.

NOTE 3 - LIQUIDITY, UNCERTAINTIES AND GOING CONCERN

The Company is subject to a number of risks similar to those of early stage companies, including dependence on key individuals, the difficulties inherent in the development of a commercial market, the potential need to obtain additional capital necessary to fund the development of its products, and competition from larger companies.

These consolidated financial statements have been prepared on a going concern basis which assumes the Company will be able to realize its assets and discharge its liabilities in the normal course of business for the foreseeable future. The Company has incurred a loss since inception resulting in an accumulated deficit of approximately \$9 million as of September 30, 2017, and further losses are anticipated in the development of its business raising substantial doubt about the Company's ability to continue as a going concern. The ability to continue as a going concern is dependent upon the Company generating profitable operations in the future and/or obtaining the necessary financing to meet its obligations and repay its liabilities arising from normal business operations when they come due. Management intends to finance operating costs over the next twelve months from the date of the issuance of these consolidated financial statements with existing cash on hand and loans from directors and/or the private placement of common stock. There is, however, no assurance that the Company will be able to raise any additional capital through any type of offering on terms acceptable to the Company.

NOTE 4 –EQUIPMENT

The Company’s equipment consists of the following:

	September 30, 2017	September 30, 2016
Computer equipment	\$ 7,351	\$ 7,351
	7,351	7,351
Less: accumulated depreciation	(6,181)	(3,924)
	<u>\$ 1,170</u>	<u>\$ 3,427</u>

Depreciation expense was \$2,257 and \$2,452 for the years ended September 30, 2017 and 2016, respectively.

NOTE 5 - RELATED PARTIES

In June 2014, the Company entered into an agreement with HIP, LLC (“HIP”), a company owned by the Company’s Chairman. Per the agreement, in exchange for the intellectual property consisting of certain patents and trademarks, the Company is to pay HIP periodic royalty payments equal to 1.75% of the revenue derived from the sale of any product incorporating the intellectual property.

On July 24, 2015, the Company entered into a separation agreement and release of liability (the ‘Separation Agreement’) with the Company’s former Chief Executive Officer (the “former CEO”) whereby the Company agreed to pay the former CEO a severance payment of \$150,000, plus repay a \$50,000 unsecured promissory note which is included in convertible notes payable – related parties on the accompanying balance sheet, on or before December 31, 2017, or within 10 days of the Company receiving \$700,000 in cash proceeds from the issuance of debt or equity securities. The \$150,000 severance payment is reflected in accrued compensation to related parties as of September 30, 2017 and 2016. Additionally, the Company agreed to pay the former CEO a royalty of 0.5% of the Company’s gross revenue recognize from June 15, 2015 through January 25, 2018 payable on a quarterly basis. The former CEO has initiated legal action against the Company to collect the unpaid severance payment, promissory note, and royalties, as the amounts remain unpaid as of September 30, 2017 and included in accrued liabilities on the accompany consolidated balance sheets.

On February 1, 2015, the Company entered into an Employment Agreement with one of the Company’s founder to serve as Chairman of the Board of Directors (the “Former Chairman”). The agreement has a term of seven years, renewable in two-year increments upon the approval of the Board of Directors of the Company and provides for an annual salary of \$150,000. Additionally, the agreement includes compensation of .0125% of gross revenue after successful launch of the Company’s product, subject to approval by the board of directors. During the year ended September 30, 2017, the Former Chairman and the Company entered into a deferred salary conversion agreement, whereby the Former Chairman agreed to convert a total of \$131,000 of unpaid salary, consisting of \$62,500 and \$68,500 earned for the years ended September 30, 2017 and 2016, respectively, into 379,827 shares of the Company’s common stock. As of September 30, 2017 and 2016, \$80,250 and \$75,250, respectively, remains accrued for this agreement and is included in accrued compensation to related parties on the accompanying balance sheet.

On February 4, 2016, four related party noteholders agreed to convert an aggregate of \$123,000 of 0% interest, unsecured notes payable into an aggregate of 414,588 shares of common stock at a price of \$0.30 per share.

On May 15, 2016, the Company entered into an Employment Agreement, with an Amendment dated November 7, 2016, with the Company’s CEO, Mr. Robert Finigan, terminating by either party upon 60 day written notice. The agreement calls for a compensation of minimum wage until such time the Company completes a debt or equity offering of at least \$1,000,000, when the CEO shall begin receiving a salary of \$100,000 per year, payable monthly. At such time the Company completes a debt or equity offering of at least \$5,000,000, the CEO shall begin receiving a salary of \$200,000 per year, payable monthly. The agreement allows for the cashless exercise of 500,000 stock options of the pre-Merger HeadTrainer, Inc. common stock at a price of 0.153 per share and a fair value of \$371,858. The options became fully vested on May 31, 2017 and must be exercised between May 31, 2017 and May 31, 2022 (see Note 11). These options were cancelled on the Merger date. Accrued salary under this agreement was \$21,352 and \$9,600 as of September 30, 2017 and 2016, respectively, and is included in accrued compensation to related parties on the accompanying balance sheet. On May 19, 2017, the Company granted 337,064 shares with a value of \$100,000 in lieu of salary under this agreement, of which \$37,808 and \$62,192 were earned and included in stock-based compensation – related party for the years ended September 30, 2017 and 2016, respectively.

NOTE 10 – COMMON STOCK

On May 13, 2014, the Company filed its Articles of Incorporation with the State of North Carolina Secretary of State giving it the authority to issue 10,000,000 common shares, with no par value. On February 3, 2016, the majority voting common shareholders approved the amendment of the Company's articles of incorporation in order to increase its authorized common stock from 10,000,000 shares to 25,000,000 shares.

On September 11, 2017, TeleHealthCare executed an Agreement and Plan of Merger (the "Merger Agreement") with HeadTrainer, Inc., a North Carolina corporation, and HT Acquisition Corp., a Wyoming corporation and wholly-owned subsidiary of HeadTrainer, Inc. (the "Acquisition") whereby the Acquisition will be merged with and into the Company (the "Merger") in consideration for 17,500,000 newly-issued shares of Common Stock of the Company (the "Merger Shares"). As a result of the Merger, HeadTrainer became a wholly-owned subsidiary of TeleHealthCare, and following the consummation of the Merger and giving effect to the retirement of approximately 15,666,667 shares (leaving approximately 8,000,000 shares remaining prior to the Merger), and the sale of approximately 3,333,334 shares at the Merger to accredited investors, the stockholders of HeadTrainer, Inc. became beneficial owners of approximately 61% of our issued and outstanding common stock. Certain assets and liabilities of the original TeleHealthCare were then spun off, including assets and liabilities associated with CarePanda, with the Company assuming approximately \$195,000 of remaining liabilities and changing the name of the newly merged company to HeadTrainer, Inc. All TeleHealthCare stock options or warrants expired by September 30, 2017. Warrants to purchase an aggregate of 500,000 shares of common stock remain from HeadTrainer, with a total of 875,000 HeadTrainer stock options cancelled (See Note 11).

As a result of the Merger, each HeadTrainer shareholder received approximately 2.53 newly issued shares of TeleHealthCare for every 1 common share of HeadTrainer owned.

Concurrent with Merger, our Board of Directors approved an amendment to our Articles of Incorporation (the "Amendment") to (i) change our name to HeadTrainer, Inc.; (ii) to increase the number of our authorized shares of capital stock to 510,000,000 shares, of which 500,000,000 shares shall be common stock and 10,000,000 shares shall be blank check preferred stock; and (iii) to provide that the Company may take action without a meeting on the written consent of the holders of a majority of the shares entitled to vote at such meeting.

Transactions during the year ended September 30, 2016:

On February 4, 2016, four related party noteholders agreed to convert an aggregate of \$123,000 of 0% interest, unsecured notes payable into an aggregate of 414,588 shares of common stock at a price of \$0.30 per share.

On February 4, 2016, fourteen convertible noteholders agreed to convert an aggregate of \$1,300,000 of 10% interest, convertible notes payable, out of which a total of \$450,000 are related party notes payable, into an aggregate of 1,752,731 shares of common stock at a price of \$0.75 per share and settle accrued interest of \$106,918. The stated conversion rate in the notes was \$1.47 per common share, thus company recognized a loss on settlement of \$153,082 to reflect the fair value of additional shares issued as a result of agreeing to the lowered conversion rate of \$0.75 per share.

The warrants have a 5-year term and exercise price of \$0.21. The fair value of the warrants of \$186,876 is reflected in additional paid-in capital and stock-based compensation for the year ended September 30, 2016. The Company valued the warrant using the Black-Scholes option pricing model with the following assumptions: dividend yield of zero, expected term of 5 years, risk free rate 1.93 percent, and annualized volatility of 274%. These warrants were not converted in the Merger and remain outstanding.

On May 18, 2016, the Company issued a warrant for 631,994 shares of common stock under a Debt Restructure and Conversion Agreement with a consultant (see Note 10). The warrants have a 10-year term and an exercise price of \$0.21. The fair value of the warrants of \$187,498 is reflected in additional paid-in capital and loss on debt settlement for the year ended September 30, 2016. The Company valued the warrant using the Black-Scholes option pricing model with the following assumptions: dividend yield of zero, contractual term of 10 years, risk free rate of 2.45 percent, and annualized volatility of 277%. These warrants were not converted in the Merger and remain outstanding.

On May 15, 2016, the Company granted 500,000 stock options to the Company's president under the terms of his employment agreement (see note 5). The agreement allowed for the cashless exercise of 500,000 stock options at a price of \$0.069 per share. The options become fully vested on May 31, 2017 and may be exercised between May 31, 2017 and May 31, 2022. Total expense related to these options was \$237,168 and \$134,688 for the years ended September 30, 2017 and 2016 respectively, with \$0 unrecognized cost related to the stock options remaining. The Company valued the options using the Black-Scholes option pricing model with the following assumptions: dividend yield of zero, expected term of 3.5 years, risk free rate of 1.47 percent, a forfeiture rate of 0%, and annualized volatility of 247%. These options were cancelled upon the Merger.

The Company owes \$3,869 for past due payments under this lease as of September 30, 2017, which it has agreed to pay over monthly installments through May 2018. The Company did not lease office space from August 2016 through July 2017.

The Company entered into a lease agreement for office space in August 2017 for a total monthly rental of \$1,995 and a term of 24 months.

NOTE 14 – COMMITMENTS AND CONTINGENCIES

The Company has endorsement agreements with spokespeople to serve as the Company's brand ambassadors entered in January 2015, providing for cash compensation of \$100,000 annually. The agreements have a ten-year term and provide for one-year extensions by agreement of both parties. The future compensation to brand ambassadors is \$1,450,000, to be earned during the period from October 1, 2017 to December 31, 2024. In addition, the Company will pay royalties to each spokesperson of .5% per month for all gross subscription revenue received by the Company for US subscriptions and 0.25% per month for all gross subscription revenue received by the Company for all non-US subscriptions. Accrued royalties under these agreements were not material as of September 30, 2017 or 2016. Total accrued expense under these agreements was \$250,000 and \$350,000 respectively, as of September 30, 2017 and 2016, respectively.

The Company has endorsement agreements with athletes with dates all expiring in 2017, providing for cash compensation of amounts ranging from \$50,000 annually to \$150,000 annually. The future compensation to athletes is \$0 as of September 30, 2017. In addition, the Company agreed to pay royalties of .5% of revenues from subscribers that identify the selected athlete as their favorite athlete. Accrued royalties under these agreements were not material as of September 30, 2017 or 2016. Total accrued expense related to these agreements was \$775,000 and \$463,333 as of September 30, 2017 and 2016, respectively. All agreements were expired as of September 30, 2017.

In addition to the royalties to be paid to brand ambassadors and athletes, the Company is to pay royalties the former CEO and to the Company's Founder as disclosed in Related Party footnote.

The Company is to pay commissions to Apple and Google in consideration for services as the Company's agent and commissionaire for sales of licensed applications to end-users in the amount of 30% of all purchase prices payable to each end-user. The Company's application was inactive during the year ended September 30, 2017.

On September 30, 2016, the Company entered into a services agreement with a service provider for a development project payable in installments upon completion of certain milestones. The Company incurred \$203,500 of expense related to the project which is included in research and development expense for the year ended September 30, 2017.

NOTE 15 - INCOME TAXES

As of September 30, 2017, the Company had federal and state net operating loss carryforwards of approximately \$5 million available to reduce future years' taxable income through 2037. Future tax benefits which may arise as a result of these losses have not been recognized in these consolidated financial statements, as their realization is determined not likely to occur and accordingly, the Company has recorded a valuation allowance for the deferred tax asset relating to these tax loss carryforwards. Deferred tax assets are established using the U.S. federal statutory tax rate of 34.0% and a state tax rate, net of federal benefit, of 2.6%.

Income tax expense attributable to pretax loss from operations differed from the amounts computed by applying the U.S. federal income tax rate of 34% to pretax loss as a result of the following:

	For the Year Ended	
	September 30, 2017	September 30, 2016
Computed "expected" tax expense	\$ (597,000)	\$ (1,360,000)
Increase (reduction) in income tax resulting from:		
Change in valuation allowance	330,000	420,000
State taxes, net of federal benefit	(46,000)	(106,000)
Non-deductible losses and expenses	313,000	1,046,000
Total income tax	\$ -	\$ -

The components of the deferred tax asset and the amount of the valuation allowance are as follow:

	September 30, 2017	September 30, 2016
Deferred tax asset attributed to:		
Net operating losses	\$ 1,980,000	\$ 1,650,000
Less, valuation allowance	(1,980,000)	(1,650,000)
Net deferred tax assets	\$ -	\$ -

The increase in the valuation allowance of approximately \$330,000 during the year ended September 30, 2017 primarily represents the benefit of the change in net operating loss carry-forwards during the period.

Utilization of the net operating loss carryforwards may be subject to substantial annual limitation under Section 382 of the Internal Revenue Code of 1986, and corresponding provisions of state law, due to ownership changes that have occurred previously or that could occur in the future. These ownership changes may limit the amount of carryforwards that can be utilized annually to offset future taxable income. In general, an ownership change, as define by Section 382, results from transactions increasing the ownership of certain stockholders or public groups in the stock of a corporation by more than 50% over a three-year period. The Company has not conducted a study to determine whether a change of control has occurred or whether there have been multiple changes of control due to the significant complexity and cost associated with such a study. If the Company has experienced a change of control, as defined by Section 382, utilization of the net operating loss carryforwards or research and development tax credit carryforwards would be subject to an annual limitation under Section 382. Any limitation may result in expiration of a portion of the net operating loss carryforwards before utilization. Further, until a study is completed and any limitation is known, no amounts are being presented as an uncertain tax position.

The statute of limitations for assessment by the Internal Revenue Service, or the IRS, and state tax authorities is open for tax years since inception for federal and state tax purposes. The Company files income tax returns in the U.S. federal and North Carolina state jurisdictions. There are currently no federal or state audits in progress.

The Tax Cuts and Jobs Act (the Act) was enacted on December 22, 2017. The Act reduces the US federal corporate tax rate from 35% to 21% and will require the Company to re-measure certain deferred tax assets and liabilities based on the rates at which they are anticipated to reverse in the future, which is generally 21%. The Company is currently examining certain aspects of the Act as it relates our calculations, which could potentially affect the measurement of these balances or potentially give rise to new deferred tax amounts in periods subsequent to December 31, 2017.

Pursuant to the Equity Purchase Agreement, the closing for Capital Call Shares shall occur on the date that is six business days following the date that the Investor receives Capital Call Shares from the Company. The purchase price for the shares to be paid by the Investor at each closing shall be 70% of the volume-weighted average price of the Company's common stock during the 5 trading days prior to a closing date. The obligation of the Investor to purchase Capital Call Shares is subject to several conditions, including, among other thing, (i) that the Company has filed a registration statement with the United States Securities and Exchange Commission registering the Capital Call Shares, and (ii) that the purchase of Capital Call Shares shall not cause the Investor to own more than 4.99% of the outstanding shares of the Company's common stock.

In connection with the Equity Purchase Agreement, on August 29, 2018, the Company also entered into a *Registration Rights Agreement* with the Investor (the “Registration Rights Agreement”), requiring the Company to register, the Capital Call Shares on a registration statement to be filed with the Securities and Exchange Commission within 30 calendar days of the Closing Date. Additionally, on August 29, 2018, the Company approved a donation of 400,000 shares of the Company’s common stock to Triton Funds LLC.

On August 28, 2018, XSport Global, Inc., a Wyoming corporation (the “Company”) entered into a stock purchase agreement (the “Agreement”) whereby the Company agreed to acquire all of the outstanding capital stock (the “Shares”) of Shift Now, Inc., a North Carolina corporation (“Shift Now”). The purchase price for the Shares was 700,000 shares of our common stock, par value \$0.001 per share (the “Common Stock”) and \$30,000 consisting of two promissory notes for \$15,000 each (the “Notes”). The first promissory note for \$15,000 is to be delivered at closing and due within 12 months of the closing. The second promissory note for \$15,000 is to be delivered to the Seller no later than the 12 month anniversary of the closing and due within 12 months after issuance. Additionally, the Company assumed the Shift Now’s existing line of credit made in favor of American National Bank in the current amount of \$100,000. Also on August 28, 2018, the Company entered into an employment agreement (the “Employment Agreement”) with Kristi Griggs, the former principal shareholder of Shift Now (the “Employee”) to serve as Executive Vice President of the Company’s Shift Now Division. The Employment Agreement provides that upon consummation of the Merger, Employee shall be entitled to receive a salary of \$100,000 per year plus a bonus of 5% of net revenue of clients managed by Employee or 1.5% of total gross revenues of Shift Now to be paid on the last pay period of the month for the prior month’s activity. Additionally, the Company shall issue the Employee 150,000 shares of Common Stock at the 12-month anniversary of execution of the Employment Agreement. Employee shall receive an additional 150,000 shares of Common Stock upon the 24-month anniversary of the Employment Agreement. The Employee may receive severance of the greater of six months’ salary or \$50,000 upon termination of the Employment Agreement and shall be entitled to retain all equity ownership earned as of the date of termination.

On June 5, 2018, a previously approved three-for-one reverse stock split of the Company’s common stock took effect on the Company’s principal trading market. All shares and per share numbers in these consolidated financial statements have been retrospectively adjusted to reflect the reverse stock split.

On September 15, 2018 the Company and Bob Finigan entered into an amended employment agreement whereas he will received \$200,000 per year until expiration on December 31, 2020 and an annual stock grants of 500,000 shares per year. Mr. Finigan is also entitled to an annual bonus to be approved by the Board of Directors paid in the form of company stock in the amount of shares up to 1.5% of the total number of shares issued by the company on the last day of each year.

On September 15, 2018 the Company and Maurice Durschlag entered into an amended employment agreement whereas he will received \$180,000 per year until expiration on December 31, 2020 and an annual stock grants of 500,000 shares per year. Mr. Durschlag is also entitled to an annual bonus to be approved by the Board of Directors paid in the form of company stock in the amount of shares up to 1.0% of the total number of shares issued by the company on the last day of each year.

Re: Registration Statement on Form S-1 of XSport Global, Inc.

Ladies and Gentlemen:

This opinion is furnished to you in connection with a Registration Statement on Form S-1 (the "Registration Statement") to be filed with the Securities and Exchange Commission (the "Commission") under the Securities Act of 1933, as amended (the "Securities Act"), for the registration of an aggregate of 5,400,000 shares (the "Shares") of common stock par value \$0.001 per share (the "Common Stock") of XSport Global, Inc., a Wyoming corporation (the "Company").

We have acted as special counsel for the Company in connection with the registration of the resale of the Shares. We have examined signed copies of an Equity Purchase Agreement between the Company and Triton Funds L.P. (the "Purchaser") dated August 28, 2018 (the "Agreement"), a Registration Rights Agreement between the Company and the Purchaser, also dated August 28, 2018, and the Registration Statement to be filed with the Commission. We have also examined and relied upon the resolutions of the Board of Directors of the Company as provided to us by the Company, the Amended and Restated Articles of Incorporation, the By-laws, and resolutions adopted by the Board of Directors of the Company, each as restated and/or amended to date, and such other documents as we have deemed necessary for purposes of rendering the opinions hereinafter set forth.

Based upon and subject to the foregoing and assuming that there are no changes in the facts as we understand them, we are of the opinion that the Shares to be registered as covered by the Registration Statement, when sold in accordance with the terms and conditions set forth in the Agreement and the Registration Statement, will be duly authorized, validly issued, fully paid and non-assessable.

In our examination, we have assumed the genuineness of all signatures, the legal capacity of all natural persons, the authenticity of all documents submitted to us as originals, the conformity to original documents of all documents submitted to us as certified or photocopies and the authenticity of the originals of such documents, and the accuracy and completeness of the corporate records made available to us by the Company. As to any facts material to the opinions expressed below, with your permission we have relied solely upon, without independent verification or investigation of the accuracy or completeness thereof, any certificates and oral or written statements and other information of or from public officials, officers or other representatives of the Company and others.

We hereby consent to the filing of this opinion as an exhibit to the Registration Statement and to the reference to this firm in the Registration Statement. In so doing, we do not admit that we are in the category of persons whose consent is required under Section 7 of the Act and the rules and regulations of the Securities and Exchange Commission promulgated thereunder.

We are qualified to practice law in the State of New York and do not purport to be experts on any law other than the laws of the State of New York and the Federal law of the United States. We express no opinion regarding the Securities Act, or any other federal or state securities laws or regulations. The opinion is being furnished in accordance with the requirements of Item 601(b)(5) of Regulation S-K under the Securities Act. This opinion letter is limited to the specific legal matters expressly set forth herein and is limited to present statutes, regulations and administrative and judicial interpretations. We assume no obligation to revise or supplement this opinion in the event of future changes in such laws or regulations.

Very truly yours,
